NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 NATURE OF OPERATIONS

Helmerich & Payne, Inc. (“H&P,” which, together with its subsidiaries, is identified as the “Company,” “we,” “us,” or “our,” except where stated or the context requires otherwise) through its operating subsidiaries provides performance-driven drilling solutions and technologies that are intended to make hydrocarbon recovery safer and more economical for oil and gas exploration and production companies.

Our drilling services operations are organized into the following reportable operating business segments: North America Solutions, Offshore Gulf of Mexico and International Solutions. Our real estate operations, our incubator program for new research and development projects and our wholly-owned captive insurance companies are included in “Other.” Refer to Note 13—Business Segments and Geographic Information for further details on our reportable segments.

Our North America Solutions operations are primarily located in Texas, but also traditionally operate in other states, depending on demand. Such states include: Colorado, Louisiana, New Mexico, North Dakota, Ohio, Oklahoma, Pennsylvania, Utah, West Virginia, and Wyoming. Additionally, Offshore Gulf of Mexico operations are conducted in Louisiana and in U.S. federal waters in the Gulf of Mexico and our International Solutions operations have rigs and/or services primarily located in four international locations: Argentina, Bahrain, Colombia and the United Arab Emirates. Our operations in Australia are expected to begin in the fourth quarter of fiscal year 2023.

We also own and operate a limited number of commercial real estate properties located in Tulsa, Oklahoma. Our real estate investments include a shopping center and undeveloped real estate.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RELATED RISKS AND UNCERTAINTIES

Interim Financial Information

The accompanying Unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) and applicable rules and regulations of the Securities and Exchange Commission (the “SEC”) pertaining to interim financial information. Accordingly, these interim financial statements do not include all information or footnote disclosures required by GAAP for complete financial statements and, therefore, should be read in conjunction with the Consolidated Financial Statements and notes thereto in our 2022 Annual Report on Form 10-K and other current filings with the SEC. In the opinion of management, all adjustments, consisting of those of a normal recurring nature, necessary to present fairly the results of the periods presented have been included. The results of operations for the interim periods presented may not necessarily be indicative of the results to be expected for the full year.

Principles of Consolidation

The Unaudited Condensed Consolidated Financial Statements include the accounts of Helmerich & Payne, Inc. and its domestic and foreign subsidiaries. Consolidation of a subsidiary begins when the Company gains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income, expenses and other comprehensive income or loss of a subsidiary acquired or disposed of during the fiscal year are included in the Unaudited Condensed Consolidated Statements of Operations and Unaudited Condensed Consolidated Statements of Comprehensive Income (Loss) from the date the Company gains control until the date when the Company ceases to control the subsidiary. All intercompany accounts and transactions have been eliminated upon consolidation.

Cash, Cash Equivalents, and Restricted Cash

Cash and cash equivalents include cash on hand, demand deposits with banks and all highly liquid investments with original maturities of three months or less. Our cash, cash equivalents and short-term investments are subject to potential credit risk, and certain of our cash accounts carry balances greater than the federally insured limits.

We had restricted cash of \$61.4 million and \$33.9 million at June 30, 2023 and 2022, respectively, and \$36.9 million and \$19.2 million at September 30, 2022 and 2021, respectively. Of the total at June 30, 2023 and September 30, 2022, \$0.7 million and \$1.1 million, respectively, is related to the acquisition of drilling technology companies, and \$60.7 million and \$35.8 million, respectively, represents an amount management has elected to restrict for the purpose of potential insurance claims in our wholly-owned captive insurance companies. The restricted amounts are primarily invested in short-term money market securities.

Cash, cash equivalents, and restricted cash are reflected on the Unaudited Condensed Consolidated Balance Sheets as follows:

<i>(in thousands)</i>	June 30,		September 30,	
	2023	2022	2022	2021
Cash and cash equivalents	\$ 220,609	\$ 188,663	\$ 232,131	\$ 917,534
Restricted cash	61,364	33,242	36,246	18,350
Restricted cash - long-term:				
Other assets, net	—	684	632	832
Total cash, cash equivalents, and restricted cash	<u>\$ 281,973</u>	<u>\$ 222,589</u>	<u>\$ 269,009</u>	<u>\$ 936,716</u>

Related Party Transactions

In October 2022, we made a \$14.1 million equity investment, representing 106.0 million common shares in Tamboran, a publicly traded company on the Australian Securities Exchange Ltd under the ticker "TBN." Tamboran is focused on playing a constructive role in the global energy transition towards a lower carbon future, by developing a significantly low CO₂ gas resource within Australia's Beetaloo Sub-basin. Concurrent with the investment agreement, we entered into a fixed-term drilling services agreement with the same investee. Mobilization of the rig commenced during the three months ended June 30, 2023, and, as a result, we recorded \$6.7 million in receivables and \$5.7 million as a contract liability on our Unaudited Condensed Consolidated Balance Sheet as of June 30, 2023. We expect to earn \$35.2 million in revenue over the term of the contract, and, as such, this amount is included within our contract backlog as of June 30, 2023. Drilling services are expected to commence in the fourth fiscal quarter of 2023.

Refer to Note 11—Fair Value Measurement of Financial Instruments for additional information related to our investment.

Recently Issued Accounting Updates

Changes to U.S. GAAP are established by the Financial Accounting Standards Board ("FASB") in the form of Accounting Standards Updates ("ASUs") to the FASB Accounting Standards Codification ("ASC"). We consider the applicability and impact of all ASUs. ASUs not listed below were assessed and determined to be either not applicable, clarifications of ASUs listed below, immaterial, or already adopted by the Company.

The following table provides a brief description of recently adopted accounting pronouncements and our analysis of the effects on our financial statements:

Standard	Description	Date of Adoption	Effect on the Financial Statements or Other Significant Matters
Recently Adopted Accounting Pronouncements			
ASU No. 2020-06, Debt with conversion and other options (Subtopic 470-20) and Derivatives and Hedging – Contracts in Entity's own equity (subtopic 815-40): Accounting for Convertible Instruments and Contracts In An Entity's Own Equity	This ASU reduces the complexity of accounting for convertible debt and other equity-linked instruments by reducing the number of accounting models for convertible debt instruments and convertible preferred stock. Limiting the accounting models results in fewer embedded conversion features being separately recognized from the host contract as compared with current GAAP. Convertible instruments that continue to be subject to separation models are (1) those with embedded conversion features that are not clearly and closely related to the host contract, that meet the definition of a derivative, and that do not qualify for a scope exception from derivative accounting and (2) convertible debt instruments issued with substantial premiums for which the premiums are recorded as paid-in capital. This update is effective for annual and interim periods beginning after December 15, 2021.	October 1, 2022	We adopted this ASU, as required, during the first quarter of fiscal year 2023. The adoption did not have a material effect on our Unaudited Condensed Consolidated Financial Statements and disclosures.
ASU No. 2022-03, Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions	The amendments in this update clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring fair value (i.e., the entity would not apply a discount related to the contractual sale restriction). Furthermore, an entity cannot, as a separate unit of account, recognize and measure a contractual sale restriction. The following disclosures for equity securities subject to contractual sale restrictions will be required: (1) the fair value of the equity securities subject to contractual sale restrictions reflected in the balance sheet, (2) the nature and remaining duration of the restriction(s), and (3) the circumstances that could cause a lapse in the restriction(s). This update is effective for annual and interim periods beginning after December 15, 2023.	October 1, 2022	We early adopted this ASU during the first quarter of fiscal year 2023. The adoption did not have a material effect on our Unaudited Condensed Consolidated Financial Statements and disclosures.

Self-Insurance

Our wholly-owned insurance captives (the "Captives") incurred direct operating costs consisting primarily of adjustments to accruals for estimated losses of \$5.5 million and \$3.1 million for the three months ended June 30, 2023 and 2022, respectively, and \$10.2 million and \$2.7 million for the nine months ended June 30, 2023 and 2022, respectively, and rig and casualty insurance premiums of \$9.7 million and \$9.4 million during the three months ended June 30, 2023 and 2022 respectively, and \$30.6 million and \$26.2 million for the nine months ended June 30, 2023 and 2022. These operating costs were recorded within Drilling services operating expenses in our Unaudited Condensed Consolidated Statement of Operations. Intercompany premium revenues recorded by the Captives during the three months ended June 30, 2023 and 2022 amounted to \$17.4 million and \$14.7 million, respectively, and \$51.4 million and \$41.6 million during the nine months ended June 30, 2023 and 2022, respectively, which were eliminated upon consolidation. These intercompany insurance premiums are reflected as segment operating expenses within the North America Solutions, Offshore Gulf of Mexico, and International Solutions reportable operating segments and are reflected as intersegment sales within "Other." The Company self-insures employee health plan exposures in excess of employee deductibles. Starting in the second quarter of fiscal year 2020, the Captive insurer issued a stop-loss program that will reimburse the Company's health plan for claims that exceed \$50,000. This program is reviewed at the end of each policy year by an outside actuary. Our medical stop loss operating expenses for the three months ended June 30, 2023 and 2022 were \$2.1 million and \$3.8 million, respectively, and \$7.4 million and \$10.6 million for the nine months ended June 30, 2023 and 2022, respectively.

International Solutions Drilling Risks

International Solutions drilling operations may significantly contribute to our revenues and net operating income (loss). There can be no assurance that we will be able to successfully conduct such operations, and a failure to do so may have an adverse effect on our financial position, results of operations, and cash flows. Also, the success of our International Solutions operations will be subject to numerous contingencies, some of which are beyond management's control. These contingencies include general and regional economic conditions, geopolitical developments and tensions, war and uncertainty in oil-producing companies, fluctuations in currency exchange rates, modified exchange controls, changes in international regulatory requirements and international employment issues, risk of expropriation of real and personal property and the burden of complying with foreign laws. Additionally, in the event that extended labor strikes occur or a country experiences significant political, economic or social instability, we could experience shortages in labor and/or material and supplies necessary to operate some of our drilling rigs, thereby potentially causing an adverse material effect on our business, financial condition and results of operations.

We have also experienced certain risks specific to our Argentine operations. In Argentina, while our dayrate is denominated in U.S. dollars, we are paid the equivalent in Argentine pesos. The Argentine branch of one of our second-tier subsidiaries remits U.S. dollars to its U.S. parent by converting the Argentine pesos into U.S. dollars through the Argentine Foreign Exchange Market and repatriating the U.S. dollars. Argentina also has a history of implementing currency controls that restrict the conversion and repatriation of U.S. dollars. In September 2020, Argentina implemented additional currency controls in an effort to preserve Argentina's U.S. dollar reserves. As a result of these currency controls, our ability to remit funds from our Argentine subsidiary to its U.S. parent has been limited. In the past, the Argentine government has also instituted price controls on crude oil, diesel and gasoline prices and instituted an exchange rate freeze in connection with those prices. These price controls and an exchange rate freeze could be instituted again in the future. Further, there are additional concerns regarding Argentina's debt burden, notwithstanding Argentina's restructuring deal with international bondholders in August 2020, as Argentina attempts to manage its substantial sovereign debt issues. These concerns could further negatively impact Argentina's economy and adversely affect our Argentine operations. Argentina's economy is considered highly inflationary, which is defined as cumulative inflation rates exceeding 100 percent in the most recent three-year period based on inflation data published by the respective governments. Nonetheless, all of our foreign subsidiaries use the U.S. dollar as the functional currency and local currency monetary assets and liabilities are remeasured into U.S. dollars with gains and losses resulting from foreign currency transactions included in current results of operations.

We recorded aggregate foreign currency losses of \$1.4 million and \$1.7 million for the three and nine months ended June 30, 2023, respectively, and \$1.2 million and \$4.5 million for the three and nine months ended June 30, 2022, respectively. In the future, we may incur larger currency devaluations, foreign exchange restrictions or other difficulties repatriating U.S. dollars from Argentina or elsewhere, which could have a material adverse impact on our business, financial condition and results of operations. As of June 30, 2023, our cash balance in Argentina was the U.S. dollar equivalent of \$24.0 million in Argentine Pesos.

Because of the impact of local laws, our future operations in certain areas may be conducted through entities in which local citizens own interests and through entities (including joint ventures) in which we hold only a minority interest or pursuant to arrangements under which we conduct operations under contract to local entities. While we believe that neither operating through such entities nor pursuant to such arrangements would have a material adverse effect on our operations or revenues, there can be no assurance that we will in all cases be able to structure or restructure our operations to conform to local law (or the administration thereof) on terms acceptable to us.

Although we attempt to minimize the potential impact of such risks by operating in more than one geographical area, during the three and nine months ended June 30, 2023, approximately 6.8 percent and 7.3 percent of our operating revenues were generated from international locations compared to 5.4 percent and 6.7 percent during the three and nine months ended June 30, 2022, respectively. During the three and nine months ended June 30, 2023, approximately 84.8 percent and 87.3 percent of operating revenues from international locations were from operations in South America compared to 82.6 percent and 78.4 percent during the three and nine months ended June 30, 2022, respectively. Substantially all of the South American operating revenues were from Argentina and Colombia. The future occurrence of one or more international events arising from the types of risks described above could have a material adverse impact on our business, financial condition and results of operations.

NOTE 3 PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment as of June 30, 2023 and September 30, 2022 consisted of the following:

<i>(in thousands)</i>	Estimated Useful Lives	June 30, 2023	September 30, 2022
Drilling services equipment	4 - 15 years	\$ 6,382,505	\$ 6,369,888
Tubulars	4 years	571,490	569,496
Real estate properties	10 - 45 years	47,045	45,557
Other	2 - 23 years	438,908	422,479
Construction in progress ¹		92,829	70,119
		7,532,777	7,477,539
Accumulated depreciation		(4,600,184)	(4,516,730)
Property, plant and equipment, net		\$ 2,932,593	\$ 2,960,809
Assets held-for-sale		\$ 988	\$ 4,333

(1) Included in construction in progress are costs for projects in progress to upgrade or refurbish certain rigs in our existing fleet. Additionally, we include other advances for capital maintenance purchase-orders that are open/in process. As these various projects are completed, the costs are then classified to their appropriate useful life category.

Depreciation

Depreciation expense during the three months ended June 30, 2023 and 2022 was \$93.2 million and \$97.5 million, including abandonments of \$0.2 million and \$1.4 million, respectively. Depreciation expense during the nine months ended June 30, 2023 and 2022 was \$282.7 million and \$293.5 million including abandonments of \$2.4 million and \$5.2 million, respectively. These expenses are recorded within Depreciation and amortization on our Unaudited Condensed Consolidated Statements of Operations.

In November 2022, a fire at a wellsite caused substantial damage to one of our super spec-rigs within our North America Solutions segment. The major components were destroyed beyond repair and considered a total loss, and, as a result, these assets were written off and the rig was removed from our available rig count. At the time of the loss, the rig was fully insured under replacement cost insurance. The insurance recovery is expected to exceed the net book value of the components written off. The loss of \$9.2 million and an offsetting insurance recovery for the same amount are recorded within Depreciation and amortization in our Unaudited Condensed Consolidated Statement of Operations for the nine months ended June 30, 2023. During the third quarter of fiscal year 2023 we collected \$7.8 million of the total expected insurance proceeds. Future proceeds in excess of the recognized loss will be recognized once all contingencies related to the insurance claim have been resolved.

Assets Held-for-Sale

The following is a summary of the changes in the balance (in thousands) of our assets held-for-sale for the period indicated below:

Balance at September 30, 2022	\$ 4,333
Plus:	
Asset additions	1,177
Less:	
Sale of assets held-for-sale	(1,789)
Impairment expense	(2,733)
Balance at June 30, 2023	\$ 988

Fiscal Year 2023 Activity

During the nine months ended June 30, 2023, the Company initiated a plan to decommission and scrap four international FlexRig[®] drilling rigs and four conventional drilling rigs located in Argentina that are not suitable for unconventional drilling. As a result, these rigs were reclassified to Assets held-for-sale on our Unaudited Condensed Consolidated Balance Sheets. The rigs' aggregate net book value of \$8.8 million was written down to the estimated scrap value of \$0.7 million, which resulted in a non-cash impairment charge of \$8.1 million within our International Solutions segment and recorded in our Unaudited Condensed Consolidated Statement of Operations during the nine months ended June 30, 2023.

During the nine months ended June 30, 2023, our North America Solutions assets that were previously classified as Assets held-for-sale at September 30, 2022 were either sold or written down to scrap value. The aggregate net book value of these remaining assets was \$3.0 million, which exceeded the estimated scrap value of \$0.3 million, resulting in a non-cash impairment charge of \$2.7 million. During the same period, we also identified additional equipment that met the asset held-for-sale criteria and was reclassified as Assets held-for-sale on our Unaudited Condensed Consolidated Balance Sheets. The aggregate net book value of the equipment of \$1.4 million was written down to its estimated scrap value of \$0.1 million, resulting in a non-cash impairment charge of \$1.3 million during the nine months ended June 30, 2023. These impairment charges are recorded within our North America Solutions segment in our Unaudited Condensed Consolidated Statement of Operations.

Fiscal Year 2022 Activity

During the nine months ended June 30, 2022, we closed on the sale of our trucking and casing running assets for total consideration less costs to sell of \$6.0 million, in addition to the possibility of future earnout proceeds, resulting in a loss of \$3.4 million recorded in Other (gain) loss on sale of assets within our Unaudited Condensed Consolidated Statements of Operations. We recognized earnout proceeds associated with the sale of our trucking and casing running assets of \$1.4 million and \$0.9 million during the nine months ended June 30, 2023 and 2022, respectively, in Other (gain) loss on sale of assets on the Unaudited Condensed Consolidated Statements of Operations.

During the nine months ended June 30, 2022, we identified two partial rig substructures that met the asset held-for-sale criteria and were reclassified as Assets held-for-sale on our Unaudited Condensed Consolidated Balance Sheets. The combined net book value of the rig substructures of \$2.0 million were written down to their estimated scrap value of \$0.1 million, resulting in a non-cash impairment charge of \$1.9 million within our North America Solutions segment and recorded in the Unaudited Condensed Consolidated Statement of Operations for the nine months ended June 30, 2022. During the same period, we completed the sale of these assets with a net book value of approximately \$0.1 million, resulting in no gain or loss as a result of the sale. During the same period, we identified two international FlexRig[®] drilling rigs located in Colombia that met the asset held-for-sale criteria and were reclassified as Assets held-for-sale on our Unaudited Condensed Consolidated Balance Sheets. In conjunction with establishing a plan to sell the two international FlexRig[®] drilling rigs, we recognized a non-cash impairment charge of \$2.5 million within our International Solutions segment and recorded in the Unaudited Condensed Consolidated Statement of Operations during the nine months ended June 30, 2022, as the rigs aggregate net book value of \$3.4 million exceeded the fair value of the rigs less estimated cost to sell of \$0.9 million. During the nine months ended June 30, 2022, we completed the sale of these assets for total consideration of \$0.9 million, resulting in no gain or loss as a result of the sale.

During the nine months ended June 30, 2022, ADNOC Drilling accepted delivery of five rigs with an aggregate net book value of \$34.5 million. As a result, we recognized a gain of \$1.1 million, after incurring \$15.7 million of selling costs, during the nine months ended June 30, 2022 in Other (gain) loss on sale of assets within our Unaudited Condensed Consolidated Statement of Operations. Upon final acceptance of delivery, these rigs were removed from assets classified as held-for-sale as of June 30, 2022.

The significant assumptions utilized in the valuations of held-for-sale were based on our intended method of disposal, historical sales of similar assets, and market quotes and are classified as Level 2 and Level 3 inputs by ASC Topic 820, Fair Value Measurement and Disclosures. Although we believe the assumptions used in our analysis are reasonable and appropriate, different assumptions and estimates could materially impact the analysis and our resulting conclusion.

Gain on Reimbursement of Drilling Equipment

We recognized gains of \$10.6 million and \$37.9 million during the three and nine months ended June 30, 2023, respectively, and \$9.9 million and \$21.6 million during the three and nine months ended June 30, 2022, respectively, related to customer reimbursement for the current replacement value of lost or damaged drill pipe. Gains related to these asset sales are recorded in Gains on reimbursement of drilling equipment within our Unaudited Condensed Consolidated Statements of Operations.

NOTE 4 GOODWILL AND INTANGIBLE ASSETS

Goodwill

Goodwill represents the excess of the purchase price over the fair values of the assets acquired and liabilities assumed in a business combination, at the date of acquisition. Goodwill is not amortized but is tested for potential impairment at the reporting unit level, at a minimum on an annual basis in the fourth fiscal quarter, or when indications of potential impairment exist. All of our goodwill is within our North America Solutions reportable segment.

During the three and nine months ended June 30, 2023, we had no additions or impairments to goodwill. As of June 30, 2023 and September 30, 2022, the goodwill balance was \$45.7 million.

Intangible Assets

Finite-lived intangible assets are amortized using the straight-line method over the period in which these assets contribute to our cash flows and are evaluated for impairment in accordance with our policies for valuation of long-lived assets. All of our intangible assets are within our North America Solutions reportable segment and consist of the following:

(in thousands)	Weighted Average Estimated Useful Lives	June 30, 2023			September 30, 2022		
		Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
Finite-lived intangible asset:							
Developed technology	15 years	\$ 89,096	\$ 32,603	\$ 56,493	\$ 89,096	\$ 28,137	\$ 60,959
Intellectual property	13 years	2,000	463	1,537	2,000	328	1,672
Trade name	20 years	5,865	1,712	4,153	5,865	1,475	4,390
Customer relationships	5 years	4,000	4,000	—	4,000	3,867	133
		<u>\$ 100,961</u>	<u>\$ 38,778</u>	<u>\$ 62,183</u>	<u>\$ 100,961</u>	<u>\$ 33,807</u>	<u>\$ 67,154</u>

Amortization expense in the Unaudited Condensed Consolidated Statements of Operations was \$1.6 million and \$1.8 million for the three months ended June 30, 2023 and 2022 respectively and \$5.0 million and \$5.4 million for the nine months ended June 30, 2023 and 2022 respectively. Amortization expense is estimated to be approximately \$1.6 million for the remainder of fiscal year 2023, and approximately \$6.4 million for fiscal year 2024 through 2027.

NOTE 5 DEBT

We have the following unsecured long-term debt outstanding with maturities shown in the following table:

(in thousands)	June 30, 2023			September 30, 2022		
	Face Amount	Unamortized Discount and Debt Issuance Cost	Book Value	Face Amount	Unamortized Discount and Debt Issuance Cost	Book Value
Unsecured senior notes:						
Due September 29, 2031	\$ 550,000	\$ (5,004)	\$ 544,996	\$ 550,000	\$ (7,390)	\$ 542,610
	550,000	(5,004)	544,996	550,000	(7,390)	542,610
Less: long-term debt due within one year	—	—	—	—	—	—
Long-term debt	<u>\$ 550,000</u>	<u>\$ (5,004)</u>	<u>\$ 544,996</u>	<u>\$ 550,000</u>	<u>\$ (7,390)</u>	<u>\$ 542,610</u>

Senior Notes

2.90% Senior Notes due 2031 On September 29, 2021, we issued \$550.0 million aggregate principal amount of the 2.90 percent 2031 Notes in an offering to persons reasonably believed to be qualified institutional buyers in the United States pursuant to Rule 144A under the Securities Act (“Rule 144A”) and to certain non-U.S. persons in transactions outside the United States pursuant to Regulation S under the Securities Act (“Regulation S”). Interest on the 2031 Notes is payable semi-annually on March 29 and September 29 of each year, commencing on March 29, 2022. The 2031 Notes will mature on September 29, 2031 and bear interest at a rate of 2.90 percent per annum.

In June 2022, we settled a registered exchange offer (the “Registered Exchange Offer”) to exchange the 2031 Notes for new, SEC-registered notes that are substantially identical to the terms of the 2031 Notes, except that the offer and issuance of the new notes have been registered under the Securities Act and certain transfer restrictions, registration rights and additional interest provisions relating to the 2031 Notes do not apply to the new notes. All of the 2031 Notes were exchanged in the Registered Exchange Offer.

The indenture governing the 2031 Notes contains certain covenants that, among other things and subject to certain exceptions, limit the ability of the Company and its subsidiaries to incur certain liens; engage in sale and lease-back transactions; and consolidate, merge or transfer all or substantially all of the assets of the Company. The indenture governing the 2031 Notes also contains customary events of default with respect to the 2031 Notes.

4.65% Senior Notes due 2025 On October 27, 2021, we redeemed all of the outstanding 2025 Notes. As a result, the associated make-whole premium of \$56.4 million and the write off of the unamortized discount and debt issuance costs of \$3.7 million were recognized during the first fiscal quarter of 2022 contemporaneously with the October 27, 2021 debt extinguishment and recorded in Loss on extinguishment of debt on our Unaudited Condensed Consolidated Statements of Operations during the nine months ended June 30, 2022.

Credit Facility

On November 13, 2018, we entered into a credit agreement by and among the Company, as borrower, Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto, which was amended on November 13, 2019, providing for an unsecured revolving credit facility (as amended, the “2018 Credit Facility”), that was set to mature on November 13, 2024. On April 16, 2021, lenders with \$680.0 million of commitments under the 2018 Credit Facility exercised their option to extend the maturity of the 2018 Credit Facility from November 13, 2024 to November 12, 2025. No other terms of the 2018 Credit Facility were amended in connection with this extension. On March 8, 2022, we entered into the second amendment to the 2018 Credit Facility, which, among other things, raised the number of potential future extensions of the maturity date applicable to extending lenders from one to two such potential extensions and replaced provisions in respect of interest rate determinations that were based on the London Interbank Offered Rate with provisions based on the Secured Overnight Financing Rate. Additionally, lenders with \$680.0 million of commitments under the 2018 Credit Facility exercised their option to extend the maturity of the 2018 Credit Facility from November 12, 2025 to November 11, 2026. On February 10, 2023, lenders with \$680.0 million of commitments under the 2018 Credit Facility exercised their option to extend the maturity of the 2018 Credit Facility from November 11, 2026 to November 12, 2027. The remaining \$70.0 million of commitments under the 2018 Credit Facility will expire on November 13, 2024, unless extended by the applicable lender before such date.

The 2018 Credit Facility has \$750.0 million in aggregate availability with a maximum of \$75.0 million available for use as letters of credit. As of June 30, 2023, there were no borrowings or letters of credit outstanding, leaving \$750.0 million available to borrow under the 2018 Credit Facility. For a full description of the 2018 Credit Facility, see Note 7—Debt to the Consolidated Financial Statements in our 2022 Annual Report on Form 10-K.

As of June 30, 2023, we had \$95.0 million in uncommitted bilateral credit facilities, for the purpose of obtaining the issuance of international letters of credit, bank guarantees, and performance bonds. Of the \$95.0 million, \$40.0 million was outstanding as of June 30, 2023. Separately, we had \$2.1 million in standby letters of credit and bank guarantees outstanding. In total, we had \$42.1 million outstanding as of June 30, 2023.

The applicable agreements for all unsecured debt contain additional terms, conditions and restrictions that we believe are usual and customary in unsecured debt arrangements for companies that are similar in size and credit quality. At June 30, 2023, we were in compliance with all debt covenants.

NOTE 6 INCOME TAXES

We use an estimated annual effective tax rate for purposes of determining the income tax provision during interim reporting periods. In calculating our estimated annual effective tax rate, we consider forecasted annual pre-tax income and estimated permanent book versus tax differences. Adjustments to the effective tax rate and estimates could occur during the year as information and assumptions change which could include, but are not limited to, changes to the forecasted amounts, estimates of permanent book versus tax differences, and changes to tax laws and rates.

Our income tax expense from continuing operations for the three months ended June 30, 2023 and 2022 was \$40.7 million and \$1.7 million, respectively, resulting in effective tax rates of 29.9 percent and 9.0 percent, respectively. Our income tax expense (benefit) from continuing operations for the nine months ended June 30, 2023 and 2022 was \$124.2 million and \$(3.2) million, respectively, resulting in effective tax rates of 25.9 percent and 7.6 percent, respectively.

Effective tax rates differ from the U.S. federal statutory rate of 21.0 percent for the three and nine months ended June 30, 2023 and 2022 primarily due to state and foreign income taxes, permanent non-deductible items and discrete adjustments. The discrete adjustments for the three and nine months ended June 30, 2023 and 2022 are primarily due to changes in our deferred state income tax rate, return to provision adjustments, and equity compensation.

As of June 30, 2023, we have recorded approximately \$3.2 million of unrecognized tax benefits, interest, and penalties. We believe it is reasonably possible up to \$2.6 million of the unrecognized tax benefits, interest, and penalties will be recognized as of June 30, 2024 as a result of a lapse of the statute of limitations. We cannot predict with certainty if we will achieve ultimate resolution of any additional uncertain tax positions associated with our U.S. and international operations resulting in additional material increases or decreases of our unrecognized tax benefits for the next twelve months.

NOTE 7 SHAREHOLDERS' EQUITY

The Company has an evergreen authorization from the Board of Directors for the repurchase of up to four million common shares in any calendar year. In December 2022, the Board of Directors increased the maximum number of shares authorized to be repurchased in calendar year 2023 to five million common shares. On June 7, 2023, the Board of Directors further increased the maximum number of shares authorized to be repurchased in calendar year 2023 to seven million shares. The repurchases are made using our cash and cash equivalents or other available sources and are held as treasury shares on our Unaudited Condensed Consolidated Balance Sheets. During the three and nine months ended June 30, 2023, we repurchased 3.2 million and 6.5 million common shares, at an aggregate cost of \$103.2 million and \$249.0 million, including excise tax of \$1.0 million and \$1.8 million, respectively. We repurchased 3.2 million common shares at an aggregate cost of \$77.0 million during the nine months ended June 30, 2022. We did not repurchase any common shares during the three months ended June 30, 2022.

A base cash dividend of \$0.25 per share and a supplemental dividend of \$0.235 per share was declared on March 1, 2023 for shareholders of record on May 18, 2023, and was paid on June 1, 2023. On June 7, 2023, the Board of Directors declared a base cash dividend of \$0.25 per share and a supplemental cash dividend of \$0.235 per share for shareholders of record on August 17, 2023, payable on August 31, 2023. As a result, we recorded Dividends payable of \$48.9 million on our Unaudited Condensed Consolidated Balance Sheets as of June 30, 2023.

Accumulated Other Comprehensive Loss

Components of accumulated other comprehensive loss were as follows:

<i>(in thousands)</i>	June 30, 2023	September 30, 2022
Pre-tax amounts:		
Unrealized actuarial loss	\$ (14,710)	\$ (15,703)
	<u>(14,710)</u>	<u>(15,703)</u>
After-tax amounts:		
Unrealized actuarial loss	\$ (11,305)	\$ (12,072)
	<u>\$ (11,305)</u>	<u>\$ (12,072)</u>

The following is a summary of the changes in accumulated other comprehensive loss, net of tax, related to the defined benefit pension plan for the three and nine months ended June 30, 2023:

<i>(in thousands)</i>	Three Months Ended June 30, 2023	Nine Months Ended June 30, 2023
Balance at beginning of period	\$ (11,560)	\$ (12,072)
Activity during the period:		
Amounts reclassified from accumulated other comprehensive loss	255	767
Net current-period other comprehensive income	255	767
Balance at June 30, 2023	<u>\$ (11,305)</u>	<u>\$ (11,305)</u>

NOTE 8 REVENUE FROM CONTRACTS WITH CUSTOMERS

Drilling Services Revenue

With most drilling contracts, we receive payments contractually designated for the mobilization and demobilization of drilling rigs and other equipment to and from the client's drill site. Revenue associated with the mobilization and demobilization of our drilling rigs to and from the client's drill site do not relate to a distinct good or service. These revenues are deferred and recognized ratably over the related contract term that drilling services are provided. For any contracts that include a provision for pooled term days at contract inception, followed by the assignment of days to specific rigs throughout the contract term, we have elected, as a practical expedient, to recognize revenue in an amount for which the entity has a right to invoice, as permitted by ASC 606.

Performance-based contracts are contracts pursuant to which we are compensated based upon our performance against a mutually agreed upon set of predetermined targets. These contracts typically have a lower base dayrate, but give us the opportunity to receive additional compensation by meeting or exceeding certain performance targets agreed to by our customers. We often use our automated technology solutions to assist in achieving the performance targets. Total revenue recognized from performance contracts, including performance bonuses, was \$316.2 million and \$191.2 million during the three months ended June 30, 2023 and 2022, respectively, and \$883.3 million and \$483.6 million during the nine months ended June 30, 2023 and 2022, respectively.

On November 12, 2021, we settled a drilling contract dispute related to drilling services provided from fiscal years 2016 through 2019 with YPF S.A. (Argentina) ("YPF"). The settlement required that YPF make a one-time cash payment to H&P in the amount of \$11.0 million and enter into drilling service contracts for three drilling rigs, each with multi-year terms. In addition, both parties were released of all outstanding claims against each other, and as a result, H&P recognized \$5.4 million in revenue primarily due to accrued disputed amounts. Total revenue recognized as a result of the settlement in the amount of \$16.4 million is included in Drilling services revenue within the International Solutions segment on our Unaudited Condensed Consolidated Statements of Operations for the nine months ended June 30, 2022.

Contract Costs

We had capitalized fulfillment costs of \$14.3 million and \$6.3 million as of June 30, 2023 and September 30, 2022, respectively.

Remaining Performance Obligations

The total aggregate transaction price allocated to the unsatisfied performance obligations, commonly referred to as backlog, as of June 30, 2023 was approximately \$1.1 billion, of which approximately \$0.4 billion is expected to be recognized during the remainder of fiscal year 2023, approximately \$0.6 billion during fiscal year 2024, and approximately \$0.1 billion in fiscal year 2025 and thereafter. These amounts do not include anticipated contract renewals. Additionally, contracts that currently contain month-to-month terms are represented in our backlog as one month of unsatisfied performance obligations. Our contracts are subject to cancellation or modification at the election of the customer; however, due to the level of capital deployed by our customers on underlying projects, we have not been materially adversely affected by contract cancellations or modifications in the past.

Contract Assets and Liabilities

The following tables summarize the balances of our contract assets (net of allowance for estimated credit losses) and liabilities at the dates indicated:

<i>(in thousands)</i>	June 30, 2023	September 30, 2022
Contract assets, net	\$ 6,905	\$ 6,319

<i>(in thousands)</i>	June 30, 2023
Contract liabilities balance at September 30, 2022	\$ 20,646
Payment received/accrued and deferred	64,035
Revenue recognized during the period	(49,955)
Contract liabilities balance at June 30, 2023	\$ 34,726

NOTE 9 STOCK-BASED COMPENSATION

A summary of compensation expense for stock-based payment arrangements recognized in Drilling services operating expense, Research and development expense and Selling, general and administrative expense on our Unaudited Condensed Consolidated Statements of Operations, is as follows:

<i>(in thousands)</i>	Three Months Ended June 30,		Nine Months Ended June 30,	
	2023	2022	2023	2022
Stock-based compensation expense				
Drilling services operating	\$ 1,540	\$ 1,340	\$ 4,457	\$ 3,862
Research and development	500	400	1,411	1,146
Selling, general and administrative	6,140	5,311	18,016	16,206
	<u>\$ 8,180</u>	<u>\$ 7,051</u>	<u>\$ 23,884</u>	<u>\$ 21,214</u>

Restricted Stock

A summary of the status of our restricted stock awards as of June 30, 2023 and changes in non-vested restricted stock outstanding during the nine months then ended is presented below:

<i>(in thousands, except per share amounts)</i>	Shares ¹	Weighted-Average Grant Date Fair Value per Share
Non-vested restricted stock outstanding at September 30, 2022	1,493	\$ 30.85
Granted	592	44.48
Vested ²	(708)	33.95
Forfeited	(11)	36.53
Non-vested restricted stock outstanding at June 30, 2023	<u>1,366</u>	<u>\$ 35.10</u>

- (1) Restricted stock shares include restricted phantom stock units under our Director Deferred Compensation Plan. These phantom stock units confer the economic benefits of owning company stock without the actual ownership, transfer or issuance of any shares. Phantom stock units are subject to a vesting period of one year from the grant date. During the nine months ended June 30, 2023, 12,591 restricted phantom stock units were granted and 14,199 restricted phantom stock units vested.
- (2) The number of restricted stock awards vested includes shares that we withheld on behalf of our employees to satisfy the statutory tax withholding requirements.

Performance Units

A summary of the status of our performance-vested restricted share units ("performance units") as of June 30, 2023 and changes in non-vested performance units outstanding during the nine months then ended is presented below:

<i>(in thousands, except per unit amounts)</i>	Performance Units	Weighted-Average Grant Date Fair Value per Unit
Non-vested performance units outstanding at September 30, 2022	726	\$ 33.67
Granted	144	54.30
Vested	(286)	43.40
Dividend equivalent rights performance units credited and performance factor adjustment ¹	203	36.00
Non-vested performance units outstanding at June 30, 2023 ²	<u>787</u>	<u>\$ 34.51</u>

- (1) At the end of the Vesting Period, recipients receive dividend equivalents, if any, with respect to the number of vested performance units. The vesting of units ranges from zero to 200 percent of the units granted depending on the Company's total shareholder return ("TSR") relative to the TSR of the Peer Group on the vesting date.
- (2) Of the total non-vested performance units at the end of the period, specified performance criteria has been achieved with respect to 229,421 performance units which is calculated based on the payout percentage for the completed performance period. The vesting and number of the remainder of non-vested performance units reflected at the end of the period is contingent upon our achievement of specified target performance criteria. If we meet the specified maximum performance criteria, approximately 386,073 additional performance units could vest or become eligible to vest.

Subject to the terms and conditions set forth in the applicable performance share unit award agreements and the 2020 Plan, grants of performance units are subject to a vesting period of three years (the "Vesting Period") that is dependent on the achievement of certain performance goals. Such performance unit grants consist of two separate components. Performance units that comprise the first component are subject to a three-year performance cycle. Performance units that comprise the second component are further divided into three separate tranches, each of which is subject to a separate one-year performance cycle within the full three-year performance cycle. The vesting of the performance units is generally dependent on (i) the achievement of the Company's TSR performance goals relative to the TSR achievement of a peer group of companies over the applicable performance cycle, and (ii) the continued employment of the recipient of the performance unit award throughout the Vesting Period. The Vesting Period for performance units granted in November 2019 ended on December 31, 2022 and the performance units eligible to vest were settled in shares of common stock in January 2023.

NOTE 10 EARNINGS (LOSSES) PER COMMON SHARE

ASC 260, Earnings per Share, requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividends or dividend equivalents as a separate class of securities in calculating earnings per share. We have granted and expect to continue to grant to employees restricted stock grants that contain non-forfeitable rights to dividends. Such grants are considered participating securities under ASC 260. As such, we are required to include these grants in the calculation of our basic earnings per share and calculate basic earnings per share using the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings.

Basic earnings per share is computed utilizing the two-class method and is calculated based on the weighted-average number of common shares outstanding during the periods presented.

Diluted earnings per share is computed using the weighted-average number of common and common equivalent shares outstanding during the periods utilizing the two-class method for stock options, non-vested restricted stock and performance units.

Under the two-class method of calculating earnings per share, dividends paid and a portion of undistributed net income, but not losses, are allocated to unvested restricted stock grants that receive dividends, which are considered participating securities.

The following table sets forth the computation of basic and diluted earnings (loss) per share:

<i>(in thousands, except per share amounts)</i>	Three Months Ended June 30,		Nine Months Ended June 30,	
	2023	2022	2023	2022
Numerator:				
Income (loss) from continuing operations	\$ 95,280	\$ 17,475	\$ 355,608	\$ (38,480)
Income (loss) from discontinued operations	13	277	870	(106)
Net income (loss)	95,293	17,752	356,478	(38,586)
Adjustment for basic earnings (loss) per share				
Earnings allocated to unvested shareholders	(1,283)	(368)	(4,810)	(1,138)
Numerator for basic earnings (loss) per share:				
From continuing operations	93,997	17,107	350,798	(39,618)
From discontinued operations	13	277	870	(106)
	94,010	17,384	351,668	(39,724)
Adjustment for diluted earnings (loss) per share				
Effect of reallocating undistributed earnings of unvested shareholders	2	—	9	—
Numerator for diluted earnings (loss) per share:				
From continuing operations	93,999	17,107	350,807	(39,618)
From discontinued operations	13	277	870	(106)
	<u>\$ 94,012</u>	<u>\$ 17,384</u>	<u>\$ 351,677</u>	<u>\$ (39,724)</u>
Denominator:				
Denominator for basic earnings (loss) per share - weighted-average shares	101,163	105,289	103,464	106,092
Effect of dilutive shares from restricted stock and performance share units	387	732	388	—
Denominator for diluted earnings (loss) per share - adjusted weighted-average shares	<u>101,550</u>	<u>106,021</u>	<u>103,852</u>	<u>106,092</u>
Basic earnings (loss) per common share:				
Income (loss) from continuing operations	\$ 0.93	\$ 0.16	\$ 3.39	\$ (0.37)
Income from discontinued operations	—	—	0.01	—
Net income (loss)	<u>\$ 0.93</u>	<u>\$ 0.16</u>	<u>\$ 3.40</u>	<u>\$ (0.37)</u>
Diluted earnings (loss) per common share:				
Income (loss) from continuing operations	\$ 0.93	\$ 0.16	\$ 3.38	\$ (0.37)
Income from discontinued operations	—	—	0.01	—
Net income (loss)	<u>\$ 0.93</u>	<u>\$ 0.16</u>	<u>\$ 3.39</u>	<u>\$ (0.37)</u>

We recorded a net loss during the nine months ended June 30, 2022. Accordingly, our diluted earnings per share calculation for that period was equivalent to our basic earnings per share calculation since diluted earnings per share excluded any assumed vesting of equity awards. These were excluded because they were deemed to be anti-dilutive, meaning their inclusion would have reduced the reported net loss per share in the applicable period.

The following potentially dilutive average shares attributable to outstanding equity awards were excluded from the calculation of diluted earnings (loss) per share because their inclusion would have been anti-dilutive:

<i>(in thousands, except per share amounts)</i>	Three Months Ended June 30,		Nine Months Ended June 30,	
	2023	2022	2023	2022
Potentially dilutive shares excluded as anti-dilutive	2,964	2,429	2,479	2,605
Weighted-average price per share	\$ 58.86	\$ 63.16	\$ 61.88	\$ 61.84

NOTE 11 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

We have certain assets and liabilities that are required to be measured and disclosed at fair value. Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. We use the fair value hierarchy established in ASC 820-10 to measure fair value to prioritize the inputs:

- Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.
- Level 2 — Observable inputs, other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

Recurring Fair Value Measurements

The following tables summarize our financial assets and liabilities measured at fair value on a recurring basis and indicate the level in the fair value hierarchy in which we classify the fair value measurement as of the dates indicated below:

(in thousands)	June 30, 2023			
	Fair Value	Level 1	Level 2	Level 3
Assets				
Short-term investments:				
Corporate debt securities	\$ 51,721	\$ —	\$ 51,721	\$ —

Short-term Investments

Short-term investments primarily include securities classified as trading securities. Both realized and unrealized gains and losses on trading securities are included in other income (expense) in the Unaudited Condensed Consolidated Statements of Operations. These securities are recorded at fair value. Level 1 inputs include U.S. agency issued debt securities with active markets and money market funds. For these items, quoted current market prices are readily available. Level 2 inputs include corporate bonds measured using broker quotations that utilize observable market inputs.

Long-term Investments

Equity Securities Our long-term investments include debt and equity securities and assets held in a Non-Qualified Supplemental Savings Plan ("Savings Plan") and are recorded within Investments on our Unaudited Condensed Consolidated Balance Sheets. Our assets that we hold in the Savings Plan are comprised of mutual funds that are measured using Level 1 inputs.

During September 2021, the Company made a \$100.0 million cornerstone investment in ADNOC Drilling in advance of its announced initial public offering, representing 159.7 million shares of ADNOC Drilling, equivalent to a one percent ownership stake and subject to a three-year lockup period. ADNOC Drilling's initial public offering was completed on October 3, 2021, and its shares are listed and traded on the Abu Dhabi Securities Exchange. Our investment is classified as a long-term equity investment within Investments on our Unaudited Condensed Consolidated Balance Sheets and measured at fair value with any gains or losses recognized through net income (loss) and recorded within Gain (loss) on investment securities on our Unaudited Condensed Consolidated Statements of Operations. During the nine months ended June 30, 2023, we early adopted ASU No. 2022-03 which states that the contractual restriction on the sale of an equity security that is publicly traded is not considered in measuring fair value. The provisions of ASU No. 2022-03 were consistent with our historical accounting for our investment in ADNOC Drilling. During the three and nine months ended June 30, 2023, we recognized a gain (loss) of \$(17.0) million and \$7.4 million, respectively, on our Unaudited Condensed Consolidated Statements of Operations, as a result of the change in fair value of the investment compared to a gain (loss) of \$(17.0) million and \$47.8 million during the three and nine months ended June 30, 2022, respectively. As of June 30, 2023, this investment is classified as a Level 1 investment based on the quoted stock price on the Abu Dhabi Securities Exchange.

During the nine months ended June 30, 2022, we sold our remaining equity securities of approximately 467.5 thousand shares in Schlumberger, Ltd. and received proceeds of approximately \$22.0 million. For the three months ended June 30, 2022, we recorded a gain of \$2.7 million related to this investment, which included a \$0.5 million gain recognized upon the sale of our investment and a \$2.2 million gain related to valuation adjustments. For the nine months ended June 30, 2022, we recorded a gain of \$8.2 million related to this investment, which included a \$0.5 million gain recognized upon the sale of our investment and a \$7.7 million gain related to valuation adjustments. This activity is reported in Gain (loss) on investment securities in our Unaudited Condensed Consolidated Statement of Operations. This investment was classified as Level 1 and based on the quoted stock price.

Equity Securities with Fair Value Option In October 2022, we made a \$14.1 million equity investment, representing 106.0 million common shares in Tamboran, a publicly traded company on the Australian Securities Exchange Ltd under the ticker "TBN." Tamboran is focused on playing a constructive role in the global energy transition towards a lower carbon future, by developing a significantly low CO₂ gas resource within Australia's Beetaloo Sub-basin.

We believe we have a significant influence, but not control or joint control over the investee, due to several factors, including our ownership percentage (approximately 6.2 percent as of June 30, 2023), operational involvement and role on the investee's board of directors. We consider this investment to have a readily determinable fair value and have elected to account for this investment using the fair value option with any changes in fair value recognized through net income (loss). Our investment is classified as a long-term equity investment within Investments on our Unaudited Condensed Consolidated Balance Sheet as of June 30, 2023. Under the guidance, Topic 820, Fair Value Measurement, this investment is classified as a Level 1 investment based on the quoted stock price which is publicly available. During the three and nine months ended June 30, 2023, we recognized a loss of \$1.6 million and \$1.5 million, respectively, recorded within Gain (loss) on investment securities on our Unaudited Condensed Consolidated Statements of Operations, as a result of the change in fair value of the investment during the period.

Debt Securities During April 2022, the Company made a \$33.0 million cornerstone investment in Galileo Holdco 2 Limited Technologies ("Galileo Holdco 2"), part of the group of companies known as Galileo Technologies ("Galileo") in the form of a convertible note. Galileo specializes in liquification, natural gas compression and re-gasification modular systems and technologies to make the production, transportation, and consumption of natural gas, biomethane, and hydrogen more economically viable. The convertible note bears interest at 5.0 percent per annum with a maturity date of the earlier of April 2027 or an exit event (as defined in the agreement as either an initial public offering or a sale of Galileo). If the conversion option is exercised, the note would convert into common shares of the parent of Galileo Holdco 2. We currently do not intend to sell this investment prior to its maturity date or an exit event. As of June 30, 2023, the fair value of the convertible note was approximately equal to the cost basis.

All of our long-term debt securities, including our investment in Galileo, are classified as available-for-sale and are measured using Level 3 unobservable inputs based on the absence of market activity. The following table reconciles changes in the fair value of our Level 3 assets for the periods presented below:

<i>(in thousands)</i>	Three Months Ended June 30,		Nine Months Ended June 30,	
	2023	2022	2023	2022
Assets at beginning of period	\$ 35,140	\$ 3,500	\$ 33,565	\$ 500
Purchases	41	33,024	2,116	36,024
Accrued interest ¹	2,001	—	2,001	—
Transfers out ²	—	—	(500)	—
Assets at end of period	\$ 37,182	\$ 36,524	\$ 37,182	\$ 36,524

- (1) During the nine months ended June 30, 2023, our convertible note agreement with Galileo was amended to include any interest which has accrued but not yet compounded or issued as a note. As a result, we have included accrued interest in our total investment balance.
- (2) We reclassified a portion of our long-term debt securities to short-term notes receivable and is recorded in accounts receivable on the Unaudited Condensed Consolidated Balance Sheets as of June 30, 2023.

The following table provides quantitative information (in thousands) about our Level 3 unobservable significant inputs related to our debt security investment with Galileo at June 30, 2023:

Fair Value	Valuation Technique	Unobservable Inputs
\$ 35,001	Black-Scholes-Merton model	Discount rate 22.4 %
		Risk-free rate 4.0 %
		Equity volatility 92.5 %

The above significant unobservable inputs are subject to change based on changes in economic and market conditions. The use of significant unobservable inputs creates uncertainty in the measurement of fair value as of the reporting date. Significant increases or decreases in the discount rate, risk-free rate, and equity volatility in isolation would result in a significantly lower or higher fair value measurement. It is not possible for us to predict the effect of future economic or market conditions on our estimated fair values.

Contingent Consideration Other financial instruments measured using Level 3 unobservable inputs primarily consist of potential earnout payments associated with our business acquisitions in fiscal year 2019. Contingent consideration is recorded in Accrued liabilities and Other noncurrent liabilities on the Unaudited Condensed Consolidated Balance Sheets based on the expected timing of milestone achievements. The following table reconciles changes in the fair value of our Level 3 liabilities for the periods presented below:

<i>(in thousands)</i>	Three Months Ended June 30,		Nine Months Ended June 30,	
	2023	2022	2023	2022
Liabilities at beginning of period	\$ 5,030	\$ 2,996	\$ 4,022	\$ 2,996
Additions	—	1,000	500	1,500
Total gains or losses:				
Included in earnings	4,050	—	5,808	(250)
Settlements ¹	(500)	—	(1,750)	(250)
Liabilities at end of period	<u>\$ 8,580</u>	<u>\$ 3,996</u>	<u>\$ 8,580</u>	<u>\$ 3,996</u>

(1) Settlements represent earnout payments that have been paid or earned during the period.

Nonrecurring Fair Value Measurements

We have certain assets that are subject to measurement at fair value on a nonrecurring basis. For these nonfinancial assets, measurement at fair value in periods subsequent to their initial recognition is applicable if they are determined to be impaired. These assets generally include property, plant and equipment, goodwill, intangible assets, and operating lease right-of-use assets. If measured at fair value in the Unaudited Condensed Consolidated Balance Sheets, these would generally be classified within Level 2 or 3 of the fair value hierarchy. Further details on any changes in valuation of these assets is provided in their respective footnotes.

Other Equity Securities We also hold various other equity securities without readily determinable fair values, primarily comprised of geothermal investments. These equity securities are initially measured at cost, less any impairments, and will be marked to fair value when observable price changes in identical or similar investments from the same issuer occur. As of June 30, 2023 and September 30, 2022, the aggregate balance of these equity securities was \$26.3 million and \$23.7 million, respectively, which includes an investment with a balance of \$10.7 million as of both June 30, 2023 and September 30, 2022, that was marked to fair value during the fourth fiscal quarter of 2022. This investment is classified as Level 3 based on the absence of market activity. During the three and nine months ended June 30, 2023 and 2022, we did not record any impairments on these investments.

Geothermal Investments

As of June 30, 2023 and September 30, 2022 the aggregate balance of our debt and equity security investments in geothermal energy was \$27.4 million and \$23.7 million, respectively. These investments include assets measured on both a recurring and nonrecurring basis (discussed in the subsections above). In circumstances where we are required to revalue these investments based on observable changes in fair market value, these investments would be classified as Level 3 based on the absence of market activity.

Other Financial Instruments

The carrying amount of cash and cash equivalents and restricted cash approximates fair value due to the short-term nature of these items. The majority of cash equivalents are invested in highly liquid money-market mutual funds invested primarily in direct or indirect obligations of the U.S. government and in federally insured deposit accounts. The carrying value of accounts receivable, other current and noncurrent assets, accounts payable, accrued liabilities and other liabilities approximated fair value at June 30, 2023 and September 30, 2022.

The following information presents the supplemental fair value information for our long-term fixed-rate debt at June 30, 2023 and September 30, 2022:

<i>(in millions)</i>	June 30, 2023	September 30, 2022
Long-term debt, net		
Carrying value	\$ 545.0	\$ 542.6
Fair value	443.3	430.7

The fair values of the long-term fixed-rate debt is based on broker quotes at June 30, 2023 and September 30, 2022. The notes are classified within Level 2 of the fair value hierarchy as they are not actively traded in markets.

NOTE 12 COMMITMENTS AND CONTINGENCIES

Purchase Commitments

Equipment, parts, and supplies are ordered in advance to promote efficient construction and capital improvement progress. At June 30, 2023, we had purchase commitments for equipment, parts and supplies of approximately \$134.2 million.

Guarantee Arrangements

We are contingently liable to sureties in respect of bonds issued by the sureties in connection with certain commitments entered into by us in the normal course of business. We have agreed to indemnify the sureties for any payments made by them in respect of such bonds.

Contingencies

During the ordinary course of our business, contingencies arise resulting from an existing condition, situation or set of circumstances involving an uncertainty as to the realization of a possible gain or loss contingency. We account for gain contingencies in accordance with the provisions of ASC 450, Contingencies, and, therefore, we do not record gain contingencies or recognize income until realized. The property and equipment of our Venezuelan subsidiary was seized by the Venezuelan government on June 30, 2010. Our wholly-owned subsidiaries, Helmerich & Payne International Drilling Co. ("HPIDC"), and Helmerich & Payne de Venezuela, C.A. filed a lawsuit in the United States District Court for the District of Columbia on September 23, 2011 against the Bolivarian Republic of Venezuela, Petroleos de Venezuela, S.A. and PDVSA Petroleo, S.A., seeking damages for the seizure of their Venezuelan drilling business in violation of international law and for breach of contract. While there exists the possibility of realizing a recovery on HPIDC's expropriation claims, we are currently unable to determine the timing or amounts we may receive, if any, or the likelihood of recovery.

In May 2018, an employee of our subsidiary, HPIDC, was involved in a car accident in his personal vehicle while not clocked in for work. The accident resulted in a fatality of a passenger in the other vehicle. The estate of the victim, his widow and children subsequently brought a lawsuit against the employee and HPIDC in Texas State District Court in January 2020. In February 2022, trial began in the matter and the jury reached a verdict against HPIDC and our employee for approximately \$126.0 million, including interest. In March 2022, the court entered a judgment consistent with the findings of the jury. In April 2022, the Company and its insurers filed post-trial motions, none of which were granted by the trial judge. However, in June 2022, Plaintiffs' counsel filed a Voluntary Remittitur with the trial court, which formally reduced the verdict to \$60.0 million. The Company and its insurers filed motions to appeal the judgement. As of June 30, 2023, we have incurred expenses, mainly legal fees, against the insurance deductible. At this time, we believe our insurance policies will be responsive to the amounts over our \$3.0 million insurance deductible and that foreseeable exposures to the Company exceeding the deductible will be recovered through insurance.

The Company and its subsidiaries are parties to various other pending legal actions arising in the ordinary course of our business. We maintain insurance against certain business risks subject to certain deductibles. Although no assurance can be given, we believe, based on our experiences to date and taking into account established reserves and insurance, that the ultimate resolution of such items will not have a material adverse impact on our financial condition, cash flows, or results of operations. When we determine a loss is probable of occurring and is reasonably estimable, we accrue an undiscounted liability for such contingencies based on our best estimate using information available at that time. If the estimated loss is a range of potential outcomes and there is no better estimate within the range, we accrue the amount at the low end of the range. We disclose contingencies where an adverse outcome may be material, or in the judgment of management, we conclude the matter should otherwise be disclosed.

Significant Lease Not Yet Commenced

During the nine months ended June 30, 2023, we entered into a lease agreement for our new Tulsa corporate office. This lease is expected to commence sometime during the first half of calendar year 2024. The initial lease term is approximately 12 years with two unpriced five-year extension options. The aggregate future non-cancelable lease payments are estimated to be approximately \$15.1 million.

NOTE 13 BUSINESS SEGMENTS AND GEOGRAPHIC INFORMATION

Description of the Business

We are a performance-driven drilling solutions and technologies company based in Tulsa, Oklahoma with operations in all major U.S. onshore oil and gas producing basins as well as South America and the Middle East. Our drilling operations consist mainly of contracting Company-owned drilling equipment primarily to large oil and gas exploration companies. We believe we are the recognized industry leader in drilling as well as technological innovation. We focus on offering our customers an integrated solutions-based approach by combining proprietary rig technology, automation software, and digital expertise into our rig operations rather than a product-based offering, such as a rig or separate technology package. Our drilling services operations are organized into the following reportable operating business segments: North America Solutions, Offshore Gulf of Mexico and International Solutions.

Each reportable operating segment is a strategic business unit that is managed separately, and consolidated revenues and expenses reflect the elimination of all material intercompany transactions. Our real estate operations, our incubator program for new research and development projects, and our wholly-owned captive insurance companies are included in "Other." External revenues included in "Other" primarily consist of rental income.

Segment Performance

We evaluate segment performance based on income or loss from continuing operations (segment operating income (loss)) before income taxes which includes:

- Revenues from external and internal customers
- Direct operating costs
- Depreciation and amortization
- Allocated general and administrative costs
- Asset impairment charges

but excludes gain on reimbursement of drilling equipment, other (gain) loss on sale of assets, corporate selling, general and administrative costs, corporate depreciation, and corporate restructuring charges.

General and administrative costs are allocated to the segments based primarily on specific identification and, to the extent that such identification is not practical, other methods may be used which we believe to be a reasonable reflection of the utilization of services provided.

Summarized financial information of our reportable segments for the three and nine months ended June 30, 2023 and 2022 is shown in the following tables:

<i>(in thousands)</i>	Three Months Ended June 30, 2023					
	North America Solutions	Offshore Gulf of Mexico	International Solutions	Other	Eliminations	Total
External sales	\$ 641,612	\$ 31,221	\$ 48,692	\$ 2,431	\$ —	\$ 723,956
Intersegment	—	—	—	17,359	(17,359)	—
Total sales	641,612	31,221	48,692	19,790	(17,359)	723,956

Other foreign	618	669	2,311	2,186
Total	<u>\$ 723,956</u>	<u>\$ 550,233</u>	<u>\$ 2,212,815</u>	<u>\$ 1,427,612</u>

Refer to Note 8—Revenue from Contracts with Customers for additional information regarding the recognition of revenue.

NOTE 14 SUBSEQUENT EVENTS

Subsequent to the fiscal quarter ended June 30, 2023, we entered into a \$9.0 million convertible note with Tamboran. The convertible note will be utilized to relieve Tamboran's outstanding accounts receivable balance owed to the Company, and therefore no cash was exchanged as part of the transaction. The convertible note bears interest at 5.5 percent per annum and matures in July 2028 and will be included in our Investments balance on our Consolidated Balance Sheet. If the conversion option is exercised, the note would convert to common shares of Tamboran in an amount equal to principal plus accrued interest.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q ("Form 10-Q") contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical facts included in this Form 10-Q, including without limitation, statements regarding our future financial position, business strategy, budgets, projected costs and plans, objectives of management for future operations, contract terms, and financing and funding are forward-looking statements. In addition, forward-looking statements include all statements that are not historical facts and can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "predict," "project," "target," "continue," or the negative thereof or similar terminology. Forward-looking statements are based upon current plans, estimates, and expectations that are subject to risks, uncertainties, and assumptions. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Actual results may vary materially from those indicated or anticipated by such forward-looking statements. The inclusion of such statements should not be regarded as a representation that such plans, estimates, or expectations will be achieved.

These forward-looking statements include, among others, information concerning our possible or assumed future results of operations and statements about the following such as:

- our business strategy;
- estimates of our revenues, income, earnings per share, and market share;
- our capital structure and our ability to return cash to stockholders through dividends or share repurchases;
- the amount and nature of our future capital expenditures and how we expect to fund our capital expenditures;
- the volatility of future oil and natural gas prices;
- contracting of our rigs and actions by current or potential customers;
- the effects of actions by, or disputes among or between, members of the Organization of Petroleum Exporting Countries ("OPEC") and other oil producing nations (together, "OPEC+") with respect to production levels or other matters related to the prices of oil and natural gas;
- changes in future levels of drilling activity and capital expenditures by our customers, whether as a result of global capital markets and liquidity, changes in prices of oil and natural gas or otherwise, which may cause us to idle or stack additional rigs, or increase our capital expenditures and the construction, upgrade or acquisition of rigs;
- the ongoing effect and impact of public health crises, such as the coronavirus ("COVID-19") pandemic;
- changes in worldwide rig supply and demand, competition, or technology;
- possible cancellation, suspension, renegotiation or termination (with or without cause) of our contracts as a result of general or industry-specific economic conditions, mechanical difficulties, performance or other reasons;
- expansion and growth of our business and operations;
- our belief that the final outcome of our legal proceedings will not materially affect our financial results;
- impact of federal and state legislative and regulatory actions and policies, affecting our costs and increasing operation restrictions or delay and other adverse impacts on our business;
- environmental or other liabilities, risks, damages or losses, whether related to storms or hurricanes (including wreckage or debris removal), collisions, grounding, blowouts, fires, explosions, other accidents, terrorism or otherwise, for which insurance coverage and contractual indemnities may be insufficient, unenforceable or otherwise unavailable;
- impact of geopolitical developments and tensions, war and uncertainty in oil-producing countries (including the invasion of Ukraine by Russia and any related political or economic responses and counter-responses or otherwise by various global actors or the general effect on the global economy);

- global economic conditions, such as a general slowdown in the global economy, supply chain disruptions, inflationary pressures, and instability of financial institutions, and their impact on the Company;
- our financial condition and liquidity;
- tax matters, including our effective tax rates, tax positions, results of audits, changes in tax laws, treaties and regulations, tax assessments and liabilities for taxes;
- the occurrence of cybersecurity incidents, attacks or other breaches to our information technology systems;
- potential impacts on our business resulting from climate change, greenhouse gas regulations, and the impact of climate change related changes in the frequency and severity of weather patterns;
- potential long-lived asset impairments; and
- our sustainability strategy, including expectations, plans, or goals related to corporate responsibility, sustainability and environmental matters, and any related reputational risks as a result of execution of this strategy.

Important factors that could cause actual results to differ materially from our expectations or results discussed in the forward-looking statements are disclosed in our 2022 Annual Report on Form 10-K under Part I, Item 1A— “Risk Factors” and Item 7— “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by such cautionary statements. Because of the underlying risks and uncertainties, we caution you against placing undue reliance on these forward-looking statements. We assume no duty to update or revise these forward-looking statements based on changes in internal estimates, expectations or otherwise, except as required by law.

Executive Summary

Helmerich & Payne, Inc. (“H&P,” which, together with its subsidiaries, is identified as the “Company,” “we,” “us,” or “our,” except where stated or the context requires otherwise) through its operating subsidiaries provides performance-driven drilling solutions and technologies that are intended to make hydrocarbon recovery safer and more economical for oil and gas exploration and production companies. As of June 30, 2023, our drilling rig fleet included a total of 262 drilling rigs. Our reportable operating business segments consist of the North America Solutions segment with 233 rigs, the Offshore Gulf of Mexico segment with seven offshore platform rigs and the International Solutions segment with 22 rigs as of June 30, 2023. At the close of the third quarter of fiscal year 2023, we had 170 active contracted rigs, of which 103 were under a fixed-term contract and 67 were working well-to-well, compared to 192 contracted rigs at September 30, 2022. Our long-term strategy remains focused on innovation, technology, safety, operational excellence and reliability. As we move forward, we believe that our advanced uniform rig fleet, technology offerings, financial strength, contract backlog and strong customer and employee base position us very well to respond to continued cyclical, and often times, volatile market conditions and to take advantage of future opportunities.

Market Outlook

Our revenues are primarily derived from the capital expenditures of companies involved in the exploration, development and production of crude oil and natural gas (“E&Ps”). Generally, the level of capital expenditures is dictated by current and expected future prices of crude oil and natural gas, which are determined by various supply and demand factors. Both commodities have historically been, and we expect them to continue to be, cyclical and highly volatile.

Our drilling services operations are organized into the following reportable operating segments: North America Solutions, Offshore Gulf of Mexico, and International Solutions. With respect to North America Solutions, the resurgence of oil and natural gas production coming from the United States brought about by unconventional shale drilling for oil has significantly impacted the supply of oil and natural gas and the type of rig utilized in the U.S. land drilling industry.

The technical requirements of drilling longer lateral unconventional shale wells often necessitate the use of rigs that are commonly referred to in the industry as super-spec rigs and have the following specific characteristics: AC drive, minimum of 1,500 horsepower drawworks, minimum of 750,000 lbs. hookload rating, 7,500 psi mud circulating system, and multiple-well pad capability.

There is a strong customer preference for super-spec rigs not only due to the higher rig specifications that enable more technical drilling but also due to the drilling efficiencies gained in utilizing a super-spec rig. As a result, there has been a structural decline in the use of non-super-spec rigs across the industry. We are the largest provider of super-spec rigs in the industry and, accordingly, we believe we are well positioned to respond to various market conditions.

Historically there has been a strong correlation between crude oil and natural gas prices and the demand for drilling rigs with the rig count increasing and decreasing with the up and down movements in the commodity prices. However, beginning in 2021, rig activity has not moved in tandem with crude oil prices to the same extent it had historically as a large portion of our customers instituted a more disciplined approach to their operations and capital spending in order to enhance their own financial returns. Those customers established capital budgets based upon commodity price assumptions for the upcoming year and adhered to them, not adjusting activity plans as commodity prices moved.

While overall customer capital budgets for calendar year 2023 appear to be modestly higher than those experienced in calendar year 2022, continued commodity price volatility, particularly the weakness in natural gas prices, has resulted in some customers, typically smaller ones, reducing activity and/or shifting activity to more crude oil-centric basins at least temporarily. This has led to some idle super-spec rigs being readily available in the market. That said, we have not seen and do not expect this level of idle supply in the market to have a material impact on overall rig pricing. We do see the potential for some of this recently idled super-spec capacity, especially as it relates to the Company's idled rigs, to be redeployed later in the calendar year 2023 or early in calendar year 2024.

With regards to our North America Solutions segment, volatility in natural gas prices and the related reduced rig demand contributed to an increased level of rig releases in the market during the first half of the calendar year 2023. More recently, other non-commodity price related factors, such as customer capital budgets, drilling plans, productions levels and customer consolidations, have also led some customers to release rigs as well. The Company's rig count sits at 153 as of June 30, 2023 and while we still see further rig releases during our fourth quarter of fiscal year 2023, the magnitude will likely be much more moderate than the 26 rigs that were idled during third quarter of fiscal year 2023. During fiscal year 2023, the Company has maintained a fiscally prudent approach to deploying capital and prioritizing economic margins over rig utilization, which we believe has been beneficial to the Company's overall financial results. Going forward, we see the potential for the Company's active rig count to increase in the first and second fiscal quarters of 2024 as customers reset their capital budgets for 2024. Furthermore, we still believe the supply and demand dynamics surrounding our North America Solutions segment remain constructive for future activity and pricing levels.

Collectively, our other business segments, Offshore Gulf of Mexico and International Solutions, are exposed to the same macro commodity price environment affecting our North America Solutions segment; however, activity levels in the International Solutions segment are also subject to other various geopolitical and financial factors specific to the countries of our operations. Currently, activity levels in these business segments look to remain relatively steady at current levels for the foreseeable future.

Recent Developments

Credit Facility Extension

On February 10, 2023, lenders with \$680.0 million of commitments under the 2018 Credit Facility exercised their option to extend the maturity of the 2018 Credit Facility from November 11, 2026 to November 12, 2027. The remaining \$70.0 million of commitments under the 2018 Credit Facility will expire on November 13, 2024, unless extended by the applicable lender before such date.

Investment in Tamboran

In October 2022, we made a \$14.1 million equity investment, representing 106.0 million common shares in Tamboran, a publicly traded company on the Australian Securities Exchange Ltd under the ticker "TBN." Tamboran is focused on playing a constructive role in the global energy transition towards a lower carbon future, by developing a significantly low CO₂ gas resource within Australia's Beetaloo Sub-basin. Concurrent with the investment agreement, we entered into a fixed-term drilling services agreement with the same investee. Mobilization of the rig commenced during the three months ended June 30, 2023, and, as a result, we recorded \$6.7 million in receivables and \$5.7 million as a contract liability on our Unaudited Condensed Consolidated Balance Sheet as of June 30, 2023. We expect to earn \$35.2 million in revenue over the term of the contract, and, as such, this amount is included within our contract backlog as of June 30, 2023. Drilling services are expected to commence in the fourth fiscal quarter of 2023.

During the three and nine months ended June 30, 2023, we recognized a loss of \$1.6 million and \$1.5 million, respectively, recorded within Gain (loss) on investment securities on our Unaudited Condensed Consolidated Statements of Operations, as a result of the change in fair value of the investment during the period.

Subsequent to the fiscal quarter ended June 30, 2023, we entered into a \$9.0 million convertible note with Tamboran. Refer to Note 14—Subsequent Events to the Unaudited Condensed Consolidated Financial Statements for additional details.

Significant Lease Not Yet Commenced

During the nine months ended June 30, 2023, we entered into a lease agreement for our new Tulsa corporate office. This lease is expected to commence sometime during the first half of calendar year 2024. The initial lease term is approximately 12 years with two unpriced five-year extension options. The aggregate future non-cancelable lease payments are estimated to be approximately \$15.1 million.

Contract Backlog

As of June 30, 2023 and September 30, 2022, our contract drilling backlog, being the expected future dayrate revenue from executed contracts, was \$1.1 billion and \$1.2 billion, respectively. These amounts do not include anticipated contract renewals or expected performance bonuses. The decrease in backlog at June 30, 2023 from September 30, 2022 is primarily driven by a decrease in the number of fixed term drilling contracts executed. Approximately 65.3 percent of the June 30, 2023 total backlog is reasonably expected to be fulfilled in fiscal year 2024 and thereafter.

The following table sets forth the total backlog by reportable segment as of June 30, 2023 and September 30, 2022, and the percentage of the June 30, 2023 backlog reasonably expected to be fulfilled in fiscal year 2024 and thereafter:

<i>(in billions)</i>	June 30, 2023	September 30, 2022	Percentage Reasonably Expected to be Fulfilled in Fiscal Year 2024 and Thereafter
North America Solutions	\$ 0.9	\$ 0.9	61.2 %
Offshore Gulf of Mexico	—	—	—
International Solutions	0.2	0.3	82.1
	<u>\$ 1.1</u>	<u>\$ 1.2</u>	

The early termination of a contract may result in a rig being idle for an extended period of time, which could adversely affect our financial condition, results of operations and cash flows. In some limited circumstances, such as sustained unacceptable performance by us, no early termination payment would be paid to us. Early terminations could cause the actual amount of revenue earned to vary from the backlog reported. See Item 1A—"Risk Factors—Our current backlog of drilling services and solutions revenue may decline and may not be ultimately realized as fixed-term contracts and may, in certain instances, be terminated without an early termination payment" within our 2022 Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC"), regarding fixed term contract risk. Additionally, see Item 1A—"Risk Factors—The impact and effects of public health crises, pandemics and epidemics, such as the COVID-19 pandemic, could have a material adverse effect on our business, financial condition and results of operations" within our 2022 Annual Report on Form 10-K.

Results of Operations for the Three Months Ended June 30, 2023 and 2022

Consolidated Results of Operations

Net Income We reported income from continuing operations of \$95.3 million (\$0.93 per diluted share) from operating revenues of \$724.0 million for the three months ended June 30, 2023 compared to income from continuing operations of \$17.5 million (\$0.16 per diluted share) from operating revenues of \$550.2 million for the three months ended June 30, 2022. Included in net income for the three months ended June 30, 2023 is income of \$12.6 thousand (with no impact on a per diluted share basis) from discontinued operations. Including discontinued operations, we recorded net income of \$95.3 million (\$0.93 per diluted share) for the three months ended June 30, 2023 compared to net income of \$17.8 million (\$0.16 per diluted share) for the three months ended June 30, 2022.

Operating Revenue Consolidated operating revenues were \$724.0 million and \$550.2 million for the three months ended June 30, 2023 and 2022, respectively. The increase is primarily driven by an increase in average rig pricing in our North America Solutions segment and an increase in activity levels in our International Solutions segment. Refer to segment results below for further details.

Direct Operating Expenses, Excluding Depreciation and Amortization Direct operating expenses were \$430.2 million and \$377.3 million for the three months ended June 30, 2023 and 2022, respectively. The increase was primarily attributable to a North America Solutions wage increase that became effective at the end of fiscal year 2022, in conjunction with the aforementioned higher activity levels in our International Solutions segment.

Selling, General and Administrative Expense Selling, general and administrative expenses increased to \$49.3 million during the three months ended June 30, 2023 compared to \$44.9 million during the three months ended June 30, 2022. The increase is primarily due to a \$3.1 million increase in labor and labor-related expenses.

Loss on Investment Securities During the three months ended June 30, 2023, we recognized an aggregate loss of \$18.5 million on investment securities compared to an aggregate loss of \$14.3 million during the three months ended June 30, 2022. The aggregate loss in both periods primarily consisted of a \$17.0 million loss on our equity investment in ADNOC Drilling caused by a decrease in the fair market value of the stock. During the three months ended June 30, 2022, this loss was offset by a gain of \$2.7 million on the sale of our equity investment in Schlumberger, Ltd.

Income Taxes We had income tax expense of \$40.7 million for the three months ended June 30, 2023 (which includes discrete tax expense of approximately \$2.4 million primarily related to an increase in our deferred state income tax rate and return to provision adjustments) compared to income tax expense of \$1.7 million (which includes discrete tax expense of approximately \$6.5 million primarily related to an increase in our deferred state income tax rate and return to provision adjustments) for the three months ended June 30, 2022. Our statutory federal income tax rate for fiscal year 2023 is 21.0 percent (before incremental state and foreign taxes).

North America Solutions

<i>(in thousands, except operating statistics)</i>	Three Months Ended June 30,		% Change
	2023	2022	
Operating revenues	\$ 641,612	\$ 486,004	32.0 %

Reimbursements of "out-of-pocket" expenses	\$ 82,688	\$ 67,218	23.0

- (1) These operating metrics and financial data, including average active rigs, are provided to allow investors to analyze the various components of segment financial results in terms of activity, utilization and other key results. Management uses these metrics to analyze historical segment financial results and as the key inputs for forecasting and budgeting segment financial results.
- (2) Direct margin, which is considered a non-GAAP metric, is defined as operating revenues less direct operating expenses and is included as a supplemental disclosure because we believe it is useful in assessing and understanding our current operational performance, especially in making comparisons over time. See — Non-GAAP Measurements below for a reconciliation of segment operating income (loss) to direct margin.
- (3) Defined as the number of contractual days we recognized revenue for during the period.
- (4) Active rigs generate revenue for the Company; accordingly, 'average active rigs' represents the average number of rigs generating revenue during the applicable time period. This metric is calculated by dividing revenue days by total days in the applicable period (i.e., 91 days).
- (5) Defined as the number of rigs generating revenue at the applicable end date of the time period.

Operating Revenues Operating revenues were \$641.6 million and \$486.0 million in the three months ended June 30, 2023 and 2022, respectively. The \$155.6 million increase in operating revenue is primarily due to higher pricing levels partially offset by a 4.6 percent decrease in activity levels.

Direct Operating Expenses Direct operating expenses increased to \$364.7 million during the three months ended June 30, 2023 as compared to \$318.4 million during the three months ended June 30, 2022. This increase was primarily due to an increase of \$23.5 million in labor and labor related expenses driven by increased field wages beginning in late September 2022. Additionally, materials and supplies expense increased \$3.8 million, which were driven by higher pricing levels for consumable inventory issuance.

Depreciation and Amortization Depreciation and amortization expense decreased to \$87.2 million during the three months ended June 30, 2023 as compared to \$93.6 million during the three months ended June 30, 2022. This decrease is reflective of the downstream effect of lower capital expenditures over the past several years.

Selling, General and Administrative Expense Selling, general and administrative expense increased to \$13.0 million during the three months ended June 30, 2023 as compared to \$10.1 million during the three months ended June 30, 2022. The increase was largely driven by a \$1.8 million increase in professional fees.

Operating Revenues Operating revenues were \$31.2 million and \$32.7 million in the three months ended June 30, 2023 and 2022, respectively. The 4.5 percent decrease in operating revenue is primarily driven by a rig moving from an operating dayrate to a lower demobilization rate.

- (5) Defined as the number of rigs generating revenue at the applicable end date of the time period.

Operating Revenues Operating revenues increased to \$48.7 million during the three months ended June 30, 2023 compared to \$29.1 million during the three months ended June 30, 2022. This increase is primarily driven by a 69.2 percent increase in activity levels.

Direct Operating Expenses Direct operating expenses increased to \$45.4 million during the three months ended June 30, 2023 as compared to \$32.4 million during the three months ended June 30, 2022. This increase was primarily driven by an increase of \$7.4 million in labor and labor-related expenses and an increase of \$1.7 million in materials and supplies given higher activity levels.

Other Operations

Results of our other operations, excluding corporate selling, general and administrative costs, corporate restructuring, and corporate depreciation, are as follows:

(in thousands)	Three Months Ended June 30,		% Change
	2023	2022	
Operating revenues	\$ 19,790	\$ 17,135	15.5 %
Direct operating expenses	16,790	14,690	14.3
Depreciation	515	480	7.3
Selling, general and administrative expense	381	—	—
Operating income	<u>\$ 2,104</u>	<u>\$ 1,965</u>	7.1

Operating Revenues We continue to use our Captive insurance companies to insure the deductibles for our domestic workers' compensation, general liability, automobile liability claims programs, and medical stop-loss program and to insure the deductibles from the Company's international casualty and rig property programs. Intercompany premium revenues recorded by the Captives during the three months ended June 30, 2023 and 2022 amounted to \$17.4 million and \$14.7 million, respectively, which were eliminated upon consolidation.

Direct Operating Expenses Direct operating expenses consisted primarily of \$5.5 million and \$3.1 million in adjustments to accruals for estimated losses allocated to the Captives and rig and casualty insurance premiums of \$9.7 million and \$9.4 million during the three months ended June 30, 2023 and 2022, respectively. The change to accruals for estimated losses is primarily due to actuarial valuation adjustments by our third-party actuary.

Results of Operations for the Nine Months Ended June 30, 2023 and 2022

Consolidated Results of Operations

Net Income (Loss) We reported income from continuing operations of \$355.6 million (\$3.38 per diluted share) from operating revenues of \$2.2 billion for the nine months ended June 30, 2023 compared to a loss from continuing operations of \$38.5 million (\$0.37 loss per diluted share) from operating revenues of \$1.4 billion for the nine months ended June 30, 2022. Included in net income for the nine months ended June 30, 2023 is income of \$0.9 million (\$0.01 per diluted share) from discontinued operations. Including discontinued operations, we recorded net income of \$356.5 million (\$3.39 per diluted share) for the nine months ended June 30, 2023 compared to a net loss of \$38.6 million (\$0.37 loss per diluted share) for the nine months ended June 30, 2022.

Operating Revenue Consolidated operating revenues were \$2.2 billion for the nine months ended June 30, 2023 and \$1.4 billion for the nine months ended June 30, 2022. The increase is primarily driven by an increase in average rig pricing and activity levels in our North America Solutions segment and increased activity levels in our International Solutions segment. Refer to segment results below for further details.

Direct Operating Expenses, Excluding Depreciation and Amortization Direct operating expenses for the nine months ended June 30, 2023 were \$1.3 billion, compared to \$1.0 billion for the nine months ended June 30, 2022. The increase was primarily attributable to the aforementioned higher activity levels as well as a North America Solutions wage increase that became effective at the end of fiscal year 2022.

Selling, General and Administrative Expense Selling, general and administrative expenses increased to \$150.6 million during the nine months ended June 30, 2023 compared to \$135.7 million during the nine months ended June 30, 2022. The increase is primarily due to a \$5.1 million increase in professional fees and a \$7.4 million increase in labor and labor-related expenses.

Asset Impairment Charges During the nine months ended June 30, 2023, we recorded \$12.1 million in asset impairment charges as the Company initiated a plan to decommission, scrap and/or sell certain assets including four international FlexRig® drilling rigs, four international conventional drilling rigs, and additional equipment. The aggregate net book value of these assets of \$13.2 million was written down to their estimated scrap value of \$1.1 million. During the nine months ended June 30, 2022, we identified various assets that met the asset held-for-sale criteria and were reclassified as assets held-for-sale within our North America Solutions and International Solutions segment, which resulted in a non-cash impairment charge of \$4.4 million for the nine months ended June 30, 2022.

Gain on Investment Securities During the nine months ended June 30, 2023, we recognized an aggregate gain of \$6.1 million on investment securities. This gain is mainly comprised of a \$7.4 million gain on our equity investment in ADNOC Drilling, partially offset against a \$1.5 million loss on our investment in Tamboran, both of which were a result of fluctuations in the fair market value of the stocks. During the nine months ended June 30, 2022, we recognized an aggregate gain of \$55.7 million. This gain was primarily driven by a \$47.8 million gain on our equity investment in ADNOC Drilling caused by an increase in the fair market value of the stock and a gain of \$8.2 million on the sale of our equity investment in Schlumberger, Ltd.

Income Taxes We had income tax expense of \$124.2 million for the nine months ended June 30, 2023 (which includes discrete tax expense of \$2.3 million primarily related to an increase in our deferred state income tax rate, return to provision adjustments and equity compensation) compared to an income tax benefit of \$3.2 million (which included discrete tax expense of \$10.0 million primarily related to an increase in our deferred state income tax rate and equity compensation) for the nine months ended June 30, 2022. Our statutory federal income tax rate for fiscal year 2023 is 21.0 percent (before incremental state and foreign taxes).

See — Non-GAAP Measurements below for a reconciliation of segment operating income (loss) to direct margin.
- (3) Defined as the number of contractual days we recognized revenue for during the period.
- (4) Active rigs generate revenue for the Company; accordingly, 'average active rigs' represents the average number of rigs generating revenue during the applicable time period. This metric is calculated by dividing revenue days by total days in the applicable period (i.e., 273 days).
- (5) Defined as the number of rigs generating revenue at the applicable end date of the time period.

Operating Revenues Operating revenues were \$1.9 billion and \$1.2 billion in the nine months ended June 30, 2023 and 2022, respectively. The \$0.7 billion increase in operating revenue is primarily due to higher pricing levels and a 10.7 percent increase in activity levels.

Direct Operating Expenses Direct operating expenses increased to \$1.1 billion during the nine months ended June 30, 2023 as compared to \$0.9 billion during the nine months ended June 30, 2022. This increase was primarily driven by a \$127.7 million increase in labor and labor-related expenses driven by higher activity levels and increased field wages beginning in late September 2022. Additionally, materials and supplies expense increased by \$24.4 million, which was also primarily driven by higher activity levels.

Depreciation and Amortization Depreciation and amortization expense decreased to \$266.1 million during the nine months ended June 30, 2023 as compared to \$283.1 million during the nine months ended June 30, 2022. This decrease is reflective of the downstream effect of lower capital expenditures over the last several years.

Selling, General and Administrative Expense Selling, general and administrative expense increased to \$43.4 million during the nine months ended June 30, 2023 as compared to \$31.8 million during the nine months ended June 30, 2022. The increase was largely driven by a \$8.1 million increase in professional fees.

Asset Impairment Charges During the nine months ended June 30, 2023, our North America Solutions assets that were previously classified as Assets held-for-sale at September 30, 2022 were either sold or written down to scrap value. The aggregate net book value of these remaining assets was \$3.0 million, which exceeded the estimated scrap value of \$0.3 million, resulting in a non-cash impairment charge of \$2.7 million. During the same period, we also identified additional equipment that met the asset held-for-sale criteria and was reclassified as Assets held-for-sale on our Unaudited Condensed Consolidated Balance Sheets. The aggregate net book value of the equipment of \$1.4 million was written down to its estimated scrap value of \$0.1 million, resulting in a non-cash impairment charge of \$1.3 million during the nine months ended June 30, 2023. These impairment charges are recorded within our North America Solutions segment in our Unaudited Condensed Consolidated Statement of Operations. During the nine months ended June 30, 2022, we identified two partial rig substructures that met the assets held-for-sale criteria and were reclassified as assets held-for-sale on our Unaudited Condensed Consolidated Balance Sheets. This resulted in a non-cash impairment charge of \$1.9 million as the book values of these rig substructures were written down to their estimated scrap value of \$0.1 million.

Offshore Gulf of Mexico

Operating Revenues Operating revenues were \$101.4 million and \$91.2 million during the nine months ended June 30, 2023 and 2022, respectively. The 11.2 percent increase in operating revenue is primarily driven by pricing increases and wage increase pass-throughs which occurred in the latter portion of fiscal year 2022.

Direct Operating Expenses Direct operating expenses increased to \$75.3 million during the nine months ended June 30, 2023 as compared to \$65.5 million during the nine months ended June 30, 2022. The increase was primarily driven by the mix of rigs working at full utilization as opposed to mobilizing or being on standby, in addition to the factors described above.

Operating Revenues Operating revenues increased to \$159.4 million during the nine months ended June 30, 2023 compared to \$93.7 million during the nine months ended June 30, 2022. This increase is primarily driven by a 80.0 percent increase in activity levels. Additionally, during the nine months ended June 30, 2022, we recognized \$16.4 million in revenue related to the settlement of a contract drilling dispute related to drilling services provided from fiscal year 2016 through 2019 with YPF S.A. Refer to Note 8 - Revenue from Contracts with Customers for additional details.

Direct Operating Expenses Direct operating expenses increased to \$133.6 million during the nine months ended June 30, 2023 as compared to \$81.7 million during the nine months ended June 30, 2022. This increase was primarily driven by an increase of \$25.2 million in labor and labor-related expense and an increase of \$16.8 million in materials and supplies given higher activity levels.

Asset Impairment Charges During the nine months ended June 30, 2023, the Company initiated a plan to decommission and scrap four international FlexRig[®] drilling rigs and four conventional drilling rigs located in Argentina that are not suitable for unconventional drilling. As a result, these rigs were reclassified to Assets held-for-sale on our Unaudited Condensed Consolidated Balance Sheets. The rigs' aggregate net book value of \$8.8 million was written down to the estimated scrap value of \$0.7 million, which resulted in a non-cash impairment charge of \$8.1 million within our International Solutions segment and recorded in our Unaudited Condensed Consolidated Statement of Operations during the nine months ended June 30, 2023. During the nine months ended June 30, 2022, we identified two international FlexRig[®] drilling rigs that met the assets held-for-sale criteria and were reclassified as assets held-for-sale on our Unaudited Condensed Consolidated Balance Sheets. This resulted in an impairment charge of \$2.5 million as the book values of these international drilling rigs were written down to their fair value less estimated cost to sell of \$0.9 million.

Other Operations

Results of our other operations, excluding corporate selling, general and administrative costs, corporate restructuring, and corporate depreciation, are as follows:

(in thousands)	Nine Months Ended June 30,		% Change
	2023	2022	
Operating revenues	\$ 58,936	\$ 48,476	21.6 %
Direct operating expenses	43,035	37,288	15.4
Depreciation	1,428	1,195	19.5
Selling, general and administrative expense	869	932	(6.8)
Operating income	<u>\$ 13,604</u>	<u>\$ 9,061</u>	50.1

Operating Revenues We continue to use our Captive insurance companies to insure the deductibles for our domestic workers' compensation, general liability, automobile liability claims programs, and medical stop-loss program and to insure the deductibles from the Company's international casualty and rig property programs. Intercompany premium revenues recorded by the Captives during the nine months ended June 30, 2023 and 2022 amounted to \$51.4 million and \$41.6 million, respectively, which were eliminated upon consolidation.

Direct Operating Expenses Direct operating expenses consisted primarily of \$10.2 million and \$2.7 million in adjustments to accruals for estimated losses allocated to the Captives and rig and casualty insurance premiums of \$30.6 million and \$26.2 million during the nine months ended June 30, 2023 and 2022, respectively. The change to accruals for estimated losses is primarily due to actuarial valuation adjustments by our third-party actuary.

Liquidity and Capital Resources

Sources of Liquidity

Our sources of available liquidity include existing cash balances on hand, cash flows from operations, and availability under the 2018 Credit Facility. Our liquidity requirements include meeting ongoing working capital needs, funding our capital expenditure projects, paying dividends declared, and repaying our outstanding indebtedness. Historically, we have financed operations primarily through internally generated cash flows. During periods when internally generated cash flows are not sufficient to meet liquidity needs, we may utilize cash on hand, borrow from available credit sources, access capital markets or sell our investments. Likewise, if we are generating excess cash flows or have cash balances on hand beyond our near-term needs, we may return cash to shareholders through dividends or share repurchases, or we may invest in highly rated short-term money market and debt securities. These investments can include U.S. Treasury securities, U.S. Agency issued debt securities, highly rated corporate bonds and commercial paper, certificates of deposit and money market funds. However, in some international locations we may make short-term investments that are less conservative, as equivalent highly rated investments are unavailable. See—Note 2—Summary of Significant Accounting Policies and Related Risks and Uncertainties—International Solutions Drilling Risks.

We may seek to access the debt and equity capital markets from time to time to raise additional capital, increase liquidity as necessary, fund our additional purchases, exchange or redeem senior notes, or repay any amounts under the 2018 Credit Facility. Our ability to access the debt and equity capital markets depends on a number of factors, including our credit rating, market and industry conditions and market perceptions of our industry, general economic conditions, our revenue backlog and our capital expenditure commitments.

Cash Flows

Our cash flows fluctuate depending on a number of factors, including, among others, the number of our drilling rigs under contract, the revenue we receive under those contracts, the efficiency with which we operate our drilling rigs, the timing of collections on outstanding accounts receivable, the timing of payments to our vendors for operating costs, and capital expenditures. As our revenues increase, operating net working capital is typically a use of capital, while conversely, as our revenues decrease, operating net working capital is typically a source of capital. To date, general inflationary trends have not had a material effect on our operating margins or cash flows as we have been able to offset these cumulative cost trends with rate increases.

As of June 30, 2023, we had cash and cash equivalents of \$220.6 million and short-term investments of \$72.6 million. Our cash flows for the nine months ended June 30, 2023, and 2022 are presented below:

<i>(in thousands)</i>	Nine Months Ended June 30,	
	2023	2022
Net cash provided by (used in):		
Operating activities	\$ 619,000	\$ 116,641
Investing activities	(191,044)	(123,146)
Financing activities	(414,992)	(707,622)
Net increase (decrease) in cash and cash equivalents and restricted cash	<u>\$ 12,964</u>	<u>\$ (714,127)</u>

Operating Activities

Our operating net working capital (non-GAAP) as of June 30, 2023 and September 30, 2022 is presented below:

<i>(in thousands)</i>	June 30,	September 30,
	2023	2022
Total current assets	\$ 992,828	\$ 1,002,944
Less:		
Cash and cash equivalents	220,609	232,131
Short-term investments	72,609	117,101
Assets held-for-sale	988	4,333
	<u>698,622</u>	<u>649,379</u>
Total current liabilities	433,496	394,810
Less:		
Dividends payable	48,878	26,693
Advance payment for sale of property, plant and equipment	—	600
	<u>\$ 384,618</u>	<u>\$ 367,517</u>
Operating net working capital (non-GAAP)	\$ 314,004	\$ 281,862

Cash flows provided by operating activities were approximately \$619.0 million and \$116.6 million for the nine months ended June 30, 2023 and 2022, respectively. The change in cash provided by operating activities is primarily driven by higher activity and rates, partially offset by changes in operating net working capital. For the purpose of understanding the impact on our cash flows from operating activities, operating net working capital is calculated as current assets, excluding cash and cash equivalents, short-term investments, and assets held-for-sale, less current liabilities, excluding dividends payable and advance payments for sale of property, plant and equipment. Operating net working capital was \$314.0 million and \$281.9 million as of June 30, 2023 and September 30, 2022, respectively. This metric is considered a non-GAAP measure of the Company's liquidity. The Company considers operating net working capital to be a supplemental measure for presenting and analyzing trends in our cash flows from operations over time. Likewise, the Company believes that operating net working capital is useful to investors because it provides a means to evaluate the operating performance of the business using criteria that are used by our internal decision makers.

Investing Activities

Capital Expenditures Our capital expenditures during the nine months ended June 30, 2023 were \$281.8 million compared to \$175.0 million during the nine months ended June 30, 2022. The increase in capital expenditures is driven by higher activity and increased costs associated with rig upgrades.

Net Sales of Short-Term Investments Our net sales of short-term investments during the nine months ended June 30, 2023 were \$46.5 million compared to \$52.4 million during the nine months ended June 30, 2022. The activity in both periods is driven by our ongoing liquidity management.

Net Purchases of Long-Term Investments Our net purchases of long-term investments during the nine months ended June 30, 2023 were \$18.8 million compared to \$25.2 million during the nine months ended June 30, 2022. During the nine months ended June 30, 2023, our activity was primarily driven by our purchase of \$14.1 million equity investment in Tamboran Resources Limited and \$4.1 million in debt and equity security investments in various geothermal energy companies. The activity during the nine months ended June 30, 2022 was driven by our purchase of a \$33.0 million cornerstone investment, through a convertible note, in Galileo Holdco 2, in addition to purchases of geothermal investments of \$14.2 million, offset by the \$22.0 million of proceeds received from the liquidation of our remaining equity securities in Schlumberger, Ltd.

Sale of Assets Our proceeds from asset sales during the nine months ended June 30, 2023 were \$63.0 million compared to proceeds of \$50.3 million during the nine months ended June 30, 2022. The increase in proceeds is mainly driven by higher rig activity which drives higher reimbursement from customers for lost or damaged drill pipe and other used drilling equipment.

Financing Activities

Dividends We paid dividends of \$1.46 per share, comprised of a base cash dividend of \$0.75 and a supplemental cash dividend of \$0.71, during the nine months ended June 30, 2023. Comparatively, during the nine months ended June 30, 2022, we paid dividends of \$0.75 per share. Total dividends paid were \$152.6 million and \$80.7 million during the nine months ended June 30, 2023 and 2022, respectively. On June 7, 2023, the Board of Directors declared a base cash dividend of \$0.25 per share and a supplemental cash dividend of \$0.235 per share for shareholders of record on August 17, 2023, payable on August 31, 2023. The declaration and amount of future dividends is at the discretion of the Board and subject to our financial condition, results of operations, cash flows, and other factors the Board deems relevant.

Redemption of 4.65% Senior Notes due 2025 On October 27, 2021, we redeemed all of the outstanding 2025 Notes, resulting in a cash outflow of \$487.1 million. As a result, the associated make-whole premium of \$56.4 million was paid during the first fiscal quarter of 2022 contemporaneously with the October 27, 2021 debt extinguishment. The Company financed the redemption of the 2025 Notes with the net proceeds from the offering of the 2031 Notes, together with cash on hand. Additional details are fully discussed in Note 5—Debt.

Repurchase of Shares The Company has an evergreen authorization from the Board of Directors for the repurchase of up to four million common shares in any calendar year. In December 2022, the Board of Directors increased the maximum number of shares authorized to be repurchased in calendar year 2023 to five million common shares. On June 7, 2023, the Board of Directors further increased the maximum number of shares authorized to be repurchased in calendar year 2023 to seven million shares. The repurchases may be made using our cash and cash equivalents or other available sources and are held as treasury shares on our Unaudited Condensed Consolidated Balance Sheets. During the nine months ended June 30, 2023, we repurchased 6.5 million common shares, at an aggregate cost of \$249.0 million, including accrued excise tax of \$1.8 million, resulting in a net cash outflow of \$247.2 million. During the nine months ended June 30, 2022, 3.2 million common shares were repurchased at an aggregate cost of \$77.0 million.

Credit Facility

On November 13, 2018, we entered into a credit agreement by and among the Company, as borrower, Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto, which was amended on November 13, 2019, providing for an unsecured revolving credit facility (as amended, the “2018 Credit Facility”), that was set to mature on November 13, 2024. On April 16, 2021, lenders with \$680.0 million of commitments under the 2018 Credit Facility exercised their option to extend the maturity of the 2018 Credit Facility from November 13, 2024 to November 12, 2025. No other terms of the 2018 Credit Facility were amended in connection with this extension. On March 8, 2022, we entered into the second amendment to the 2018 Credit Facility, which, among other things, raised the number of potential future extensions of the maturity date applicable to extending lenders from one to two such potential extensions and replaced provisions in respect of interest rate determinations that were based on the London Interbank Offered Rate with provisions based on the Secured Overnight Financing Rate. Additionally, lenders with \$680.0 million of commitments under the 2018 Credit Facility exercised their option to extend the maturity of the 2018 Credit Facility from November 12, 2025 to November 11, 2026. On February 10, 2023, lenders with \$680.0 million of commitments under the 2018 Credit Facility exercised their option to extend the maturity of the 2018 Credit Facility from November 11, 2026 to November 12, 2027. The remaining \$70.0 million of commitments under the 2018 Credit Facility will expire on November 13, 2024, unless extended by the applicable lender before such date.

The 2018 Credit Facility has \$750.0 million in aggregate availability with a maximum of \$75.0 million available for use as letters of credit. As of June 30, 2023, there were no borrowings or letters of credit outstanding, leaving \$750.0 million available to borrow under the 2018 Credit Facility. For a full description of the 2018 Credit Facility, see Note 7—Debt to the Consolidated Financial Statements in our 2022 Annual Report on Form 10-K.

As of June 30, 2023, we had \$95.0 million in uncommitted bilateral credit facilities, for the purpose of obtaining the issuance of international letters of credit, bank guarantees, and performance bonds. Of the \$95.0 million, \$40.0 million was outstanding as of June 30, 2023. Separately, we had \$2.1 million in standby letters of credit and bank guarantees outstanding. In total, we had \$42.1 million outstanding as of June 30, 2023.

The applicable agreements for all unsecured debt contain additional terms, conditions and restrictions that we believe are usual and customary in unsecured debt arrangements for companies that are similar in size and credit quality. At June 30, 2023, we were in compliance with all debt covenants.

Senior Notes

2.90% Senior Notes due 2031 On September 29, 2021, we issued \$550.0 million aggregate principal amount of the 2.90 percent 2031 Notes in an offering to persons reasonably believed to be qualified institutional buyers in the United States pursuant to Rule 144A under the Securities Act (“Rule 144A”) and to certain non-U.S. persons in transactions outside the United States pursuant to Regulation S under the Securities Act (“Regulation S”). Interest on the 2031 Notes is payable semi-annually on March 29 and September 29 of each year, commencing on March 29, 2022. The 2031 Notes will mature on September 29, 2031 and bear interest at a rate of 2.90 percent annum.

In June 2022, we settled a registered exchange offer (the “Registered Exchange Offer”) to exchange the 2031 Notes for new, SEC-registered notes that are substantially identical to the terms of the 2031 Notes, except that the offer and issuance of the new notes have been registered under the Securities Act and certain transfer restrictions, registration rights and additional interest provisions relating to the 2031 Notes do not apply to the new notes. All of the 2031 Notes were exchanged in the Registered Exchange Offer.

The indenture governing the 2031 Notes contains certain covenants that, among other things and subject to certain exceptions, limit the ability of the Company and its subsidiaries to incur certain liens; engage in sale and lease-back transactions; and consolidate, merge or transfer all or substantially all of the assets of the Company. The indenture governing the 2031 Notes also contains customary events of default with respect to the 2031 Notes.

4.65% Senior Notes due 2025 On December 20, 2018, we issued approximately \$487.1 million in aggregate principal amount of the 2025 Notes. The debt issuance cost was being amortized straight-line over the stated life of the obligation, which approximated the effective interest method.

On September 27, 2021, the Company delivered a conditional notice of optional full redemption for all of the outstanding 2025 Notes at a redemption price calculated in accordance with the indenture governing the 2025 Notes, plus accrued and unpaid interest on the 2025 Notes to be redeemed. The Company financed the redemption of the 2025 Notes with the net proceeds from the offering of the 2031 Notes, together with cash on hand. The Company’s obligation to redeem the 2025 Notes was conditioned upon the prior consummation of the issuance of the 2031 Notes, which was satisfied on September 29, 2021.

On October 27, 2021, we redeemed all of the outstanding 2025 Notes. As a result, the associated make-whole premium of \$56.4 million and the write off of the unamortized discount and debt issuance costs of \$3.7 million were recognized during the first fiscal quarter of 2022 contemporaneously with the October 27, 2021 debt extinguishment and recorded in Loss on extinguishment of debt on our Unaudited Condensed Consolidated Statements of Operations during the nine months ended June 30, 2022.

Future Cash Requirements

Our operating cash requirements, scheduled debt repayments, interest payments, any declared dividends, and estimated capital expenditures for fiscal year 2023 and 2024 are expected to be funded through current cash and cash to be provided from operating activities. However, there can be no assurance that we will continue to generate cash flows at current levels. If needed, we may decide to obtain additional funding from our \$750.0 million 2018 Credit Facility. We currently do not anticipate the need to draw on the 2018 Credit Facility. Our indebtedness under our unsecured senior notes totaled \$550.0 million at June 30, 2023 and matures on September 29, 2031.

As of June 30, 2023, we had a \$541.4 million deferred tax liability on our Unaudited Condensed Consolidated Balance Sheets, primarily related to temporary differences between the financial and income tax basis of property, plant and equipment. Our levels of capital expenditures over the last several years have been subject to accelerated depreciation methods (including bonus depreciation) available under the Internal Revenue Code of 1986, as amended, enabling us to defer a portion of cash tax payments to future years. Future levels of capital expenditures and results of operations will determine the timing and amount of future cash tax payments. We expect to be able to meet any such obligations utilizing cash and investments on hand, as well as cash generated from ongoing operations.

As of June 30, 2023, we have recorded approximately \$3.2 million of unrecognized tax benefits, interest, and penalties. We believe it is reasonably possible up to \$2.6 million of the unrecognized tax benefits, interest, and penalties will be recognized as of June 30, 2024 as a result of a lapse of the statute of limitations. Any further reversals or payments of the liability cannot be estimated at this time.

The long-term debt to total capitalization ratio was 16.9 percent at June 30, 2023 and 16.6 percent at September 30, 2022. For additional information regarding debt agreements, refer to Note 5—Debt to the Unaudited Condensed Consolidated Financial Statements.

There were no other significant changes in our financial position since September 30, 2022.

Material Commitments

Material commitments as reported in our 2022 Annual Report on Form 10-K have not changed significantly as of June 30, 2023, other than those disclosed in Note 12—Commitments and Contingencies to the Unaudited Condensed Consolidated Financial Statements.

Critical Accounting Policies and Estimates

Our accounting policies and estimates that are critical or the most important to understand our financial condition and results of operations, and that require management to make the most difficult judgments, are described in our 2022 Annual Report on Form 10-K. There have been no material changes in these critical accounting policies and estimates.

Recently Issued Accounting Standards

See Note 2—Summary of Significant Accounting Policies and Related Risks and Uncertainties to the Unaudited Condensed Consolidated Financial Statements for recently adopted accounting standards and new accounting standards not yet adopted.

Non-GAAP Measurements

Direct Margin

Direct margin is considered a non-GAAP metric. We define "Direct margin" as operating revenues less direct operating expenses. Direct margin is included as a supplemental disclosure because we believe it is useful in assessing and understanding our current operational performance, especially in making comparisons over time. Direct margin is not a substitute for financial measures prepared in accordance with GAAP and should therefore be considered only as supplemental to such GAAP financial measures.

The following table reconciles direct margin to segment operating income (loss), which we believe is the financial measure calculated and presented in accordance with GAAP that is most directly comparable to direct margin.

	Three Months Ended June 30, 2023		
	North America Solutions	Offshore Gulf of Mexico	International Solutions
<i>(in thousands)</i>			
Segment operating income (loss)	\$ 169,499	\$ 4,705	\$ (1,397)

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a description of our market risks, see the following:

- Note 11—Fair Value Measurement of Financial Instruments to the Unaudited Condensed Consolidated Financial Statements contained in Item 1 of Part I hereof with regard to equity price risk which is incorporated herein by reference;
- “Item 7A. Quantitative and Qualitative Disclosures About Market Risk” in our 2022 Annual Report on Form 10-K filed with the SEC on November 16, 2022;
- Note 5—Debt to the Unaudited Condensed Consolidated Financial Statements contained in Item 1 of Part I hereof with regard to interest rate risk which is incorporated herein by reference; and
- Note 2—Summary of Significant Accounting Policies and Related Risks and Uncertainties to the Unaudited Condensed Consolidated Financial Statements contained in Item 1 of Part I hereof with regard to foreign currency exchange rate risk which is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was performed with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of June 30, 2023 at ensuring that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There have been no material changes in our internal controls over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 12—Commitments and Contingencies to the Unaudited Condensed Consolidated Financial Statements for information regarding our legal proceedings.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors previously disclosed in Part I, Item 1A—“Risk Factors” in our 2022 Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth the information with respect to our repurchases of common shares during the three months ended June 30, 2023 (in thousands except per share amounts):

Period	Total Number of Shares Purchased ¹	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs ¹
April 1 - April 30	—	—	—	2,457
May 1 - May 31	2,457	\$ 31.85	2,457	—
June 1 - June 30	701	34.15	701	1,299
Total	<u>3,158</u>		<u>3,158</u>	

- (1) Prior to January 1, 2023, the Company had an evergreen authorization from the Board of Directors for the repurchase of up to four million common shares in any calendar year. In December 2022, the Board of Directors increased the maximum number of shares authorized to be repurchased in calendar year 2023 to five million common shares. On June 7, 2023, the Board of Directors further increased the maximum number of shares authorized to be repurchased in calendar year 2023 to seven million shares. The repurchases may be made using our cash and cash equivalents or other available sources. Shares of stock repurchased pursuant to such authorization are held as treasury shares.

ITEM 5. OTHER INFORMATION

On June 27, 2023, Raymond (“Trey”) Adams III, Senior Vice President of Digital Operations, Sales, & Marketing, adopted a trading plan intended to satisfy Rule 10b5-1(c) to sell up to 13,500 shares of Company common stock between September 25, 2023 and July 5, 2024, subject to certain conditions.

ITEM 6. EXHIBITS

The following documents are included as exhibits to this Form 10-Q. Those exhibits below that are incorporated herein by reference are indicated as such by the information supplied in the parenthetical thereafter. If no parenthetical appears after an exhibit, the exhibit is filed or furnished herewith.

Exhibit Number	Description
3.1	<u>Amended and Restated Certificate of Incorporation of Helmerich & Payne, Inc. (incorporated herein by reference to Exhibit 3.1 of the Company’s Form 8-K filed on March 14, 2012, SEC File No. 001-04221).</u>
3.2	<u>Amended and Restated By-laws of Helmerich & Payne, Inc. (incorporated herein by reference to Exhibit 3.1 of the Company’s Form 8-K filed on March 3, 2023, SEC File No. 001-04221).</u>
31.1	<u>Certification of Chief Executive Officer, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</u>
31.2	<u>Certification of Chief Financial Officer, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</u>
32	<u>Certification of Chief Executive Officer and Chief Financial Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.</u>
