

Helmerich & Payne, Inc. Increases Regular Dividend, Announces Additional New Build Contracts and Takes FlexRig(R)* Construction Cadence to Four Rigs Per Month

June 4, 2014

TULSA, Okla., June 4, 2014 (GLOBE NEWSWIRE) -- Helmerich & Payne, Inc. (NYSE:HP) announced today that its Board of Directors declared a dividend of \$0.6875 per share of common stock for its third quarter of fiscal 2014 ending June 30, 2014. This represents a ten percent increase from the Company's prior quarterly regular dividend level of \$0.625 per share. The dividend is payable on September 2, 2014 to shareholders of record at the close of business on August 15, 2014.

The Company also announced today that it has entered into agreements with five exploration and production companies to build and operate nine additional FlexRigs in the U.S. All of these rigs are under multi-year term contracts and expected to generate attractive economic returns for the Company. This brings the total number of new build commitments announced in fiscal 2014 to 53 new FlexRigs.

Given the additional new build contracts and other encouraging conversations with customers regarding new FlexRig deliveries in fiscal 2015, the Company also announced today that it plans to increase its FlexRig construction cadence from three to four rigs per month beginning in September of this year. The Company's capital expenditures estimate for fiscal 2014 remains at \$1.1 billion.

Company President and CEO, John Lindsay commented, "We are pleased to be in position to further increase our regular dividend while continuing to grow the Company. H&P has a forty-year track record of increasing dividend levels every year, with significant increases during recent years. Our approach will remain flexible, retaining our ability to take advantage of market opportunities while determining effective ways to return cash to shareholders. The 53 new FlexRig orders so far during the fiscal year signal a strong drumbeat of opportunity for the foreseeable future."

Helmerich & Payne, Inc. is primarily a contract drilling company. As of June 4, 2014, the Company's existing fleet included 328 land rigs in the U.S., 32 international land rigs and nine offshore platform rigs. In addition, the Company is scheduled to complete another 24 new H&P-designed and operated FlexRigs under long-term contracts with customers. Upon completion of these commitments, the Company's global fleet is expected to have a total of 384 land rigs, including 354 FlexRigs.
