NEWS RELEASE

HELMERICH & PAYNE, INC. / 1437 SOUTH BOULDER AVENUE / TULSA, OKLAHOMA

May 22, 2017

**HELMERICH & PAYNE, INC.
ANNOUNCES ACQUISITION OF MOTIVE DRILLING TECHNOLOGIES, INC.**

TULSA, Okla., May 22, 2017 (GLOBE NEWSWIRE) — Helmerich & Payne, Inc. (NYSE:HP) announced today it has entered into an agreement to acquire MOTIVE Drilling Technologies, Inc. (“MOTIVE”) for \$75 million payable at closing and up to an additional \$25 million in potential earnout payments based on future performance during the next few years. The transaction is pending and is expected to close in June 2017.

MOTIVE’s proprietary Bit Guidance System is the industry leader in the use of cognitive computing to guide the directional drilling process. This algorithm-driven system considers the total economic consequences of directional drilling decisions and has proven to consistently lower drilling costs through more efficient drilling and increase hydrocarbon production through smoother wellbores and more accurate well placement. MOTIVE was founded in 2011 and will remain based in Dallas, Texas.

John Lindsay, Helmerich & Payne, Inc.’s President and CEO, stated, “Improving the directional drilling process has been an industry focus for some time given the value proposition of drilling wells more efficiently and with greater accuracy, resulting in a better quality wellbore. We believe MOTIVE’s directional drilling technology to be leading edge and high-potential for the industry and it has been successfully adopted by both E&P operators and directional drillers. Going forward, MOTIVE will continue to be available to all E&P operators and directional drilling service providers regardless of which drilling rig contractor is used.

“We have a strong and longstanding technology and innovation focus that has been an important part of our organization for many years. MOTIVE is an exciting example of that opportunistic approach. We are very impressed with the people at MOTIVE and believe they will continue to advance this technology which would provide further benefits for the industry. We look forward to closing the transaction soon and supporting MOTIVE’s continued growth.”

Todd Benson, MOTIVE’s Chief Executive Officer, stated, “I am very pleased with the success we have had in developing our unique directional drilling technology which has been proven on more than 200 horizontal wells to date. Our team is excited about this transaction and view H&P

as an ideal partner for the continued growth in adoption of our technology, particularly as we look to advance efficiencies, quality and safety through automation.”

“We are pleased to have launched MOTIVE within Hunt Energy Enterprises, and look forward to their successful expansion within the industry as a result of this transaction,” said Hunter Hunt, co-CEO of Hunt Consolidated, Inc. “We are also grateful for the subsequent financial and development support of our partners, Formation 8 and GE Ventures.”
