ITEM 7.01 REGULATION FD DISCLOSURE

Helmerich & Payne, Inc. (the “Company”) will discuss information to be distributed in investor meetings that includes the slides attached as Exhibit 99.1 to this Current Report on Form 8-K, which are incorporated herein by reference. In addition to other information, the attached slides provide updated Company and industry drilling activity and market conditions.

This information is not “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and is not incorporated by reference into any filing made pursuant to the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended. The furnishing of these slides is not intended to constitute a representation that such information is required by Regulation FD or that the materials they contain include material information that is not otherwise publicly available.

ITEM 9.01 FINANCIAL STATEMENTS AND EXHIBITS

(d) Exhibits.

Forward-looking Statements

Statements within this presentation are “forward-looking statements” within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, and are based on current expectations and assumptions that are subject to risks and uncertainties. All statements other than statements of historical facts included in this presentation, including, without limitation, statements regarding the Company’s future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward looking statements. For information regarding risks and uncertainties associated with the Company’s business, please refer to the “Risk Factors” and “Management’s Discussion & Analysis of Financial Condition and Results of Operations” sections of the Company’s SEC filings, including but not limited to, its annual report on Form 10-K and quarterly reports on Form 10-Q. As a result of these factors, Helmerich & Payne, Inc.’s actual results may differ materially from those indicated or implied by such forward-looking statements. We undertake no duty to update or revise our forward-looking statements based on changes in internal estimates, expectations or otherwise, except as required by law.

HELMERICH & PAYNE, INC.

About Helmerich & Payne (H&P)

- Very strong balance sheet
- U.S. land drilling market share leader
- Most modern, uniform and capable land drilling fleet
- Strong term contract backlog with high quality customer base
- Strategy focused on continued innovation, performance excellence and customer satisfaction

H&P's Global Rig Fleet

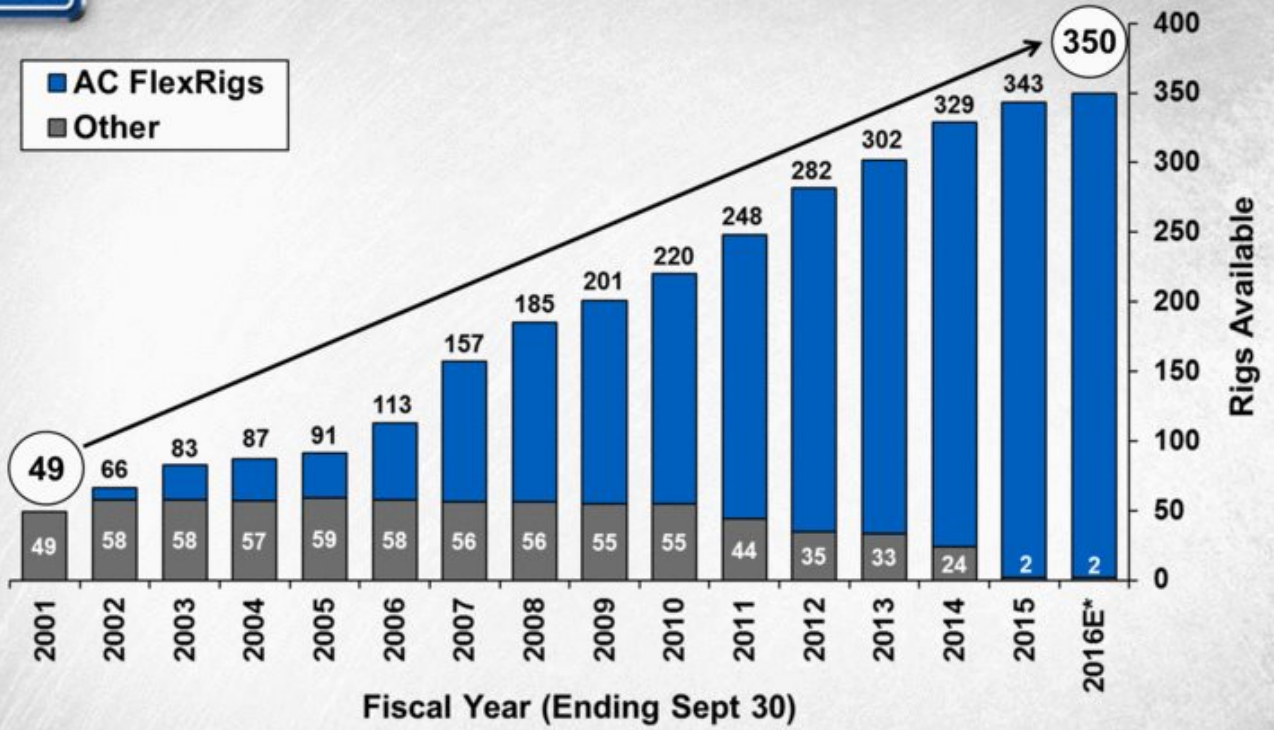

* Estimates include existing rigs and new build commitments as of January 6, 2016 and exclude 17 SCR powered FlexRigs decommissioned at the end of the second quarter of fiscal 2015 and six conventional SCR rigs decommissioned at the end of fiscal 2015.

Organic U.S. Land Fleet Growth

* Estimates include existing rigs and announced new build commitments.

U.S. Land Drilling Market Conditions

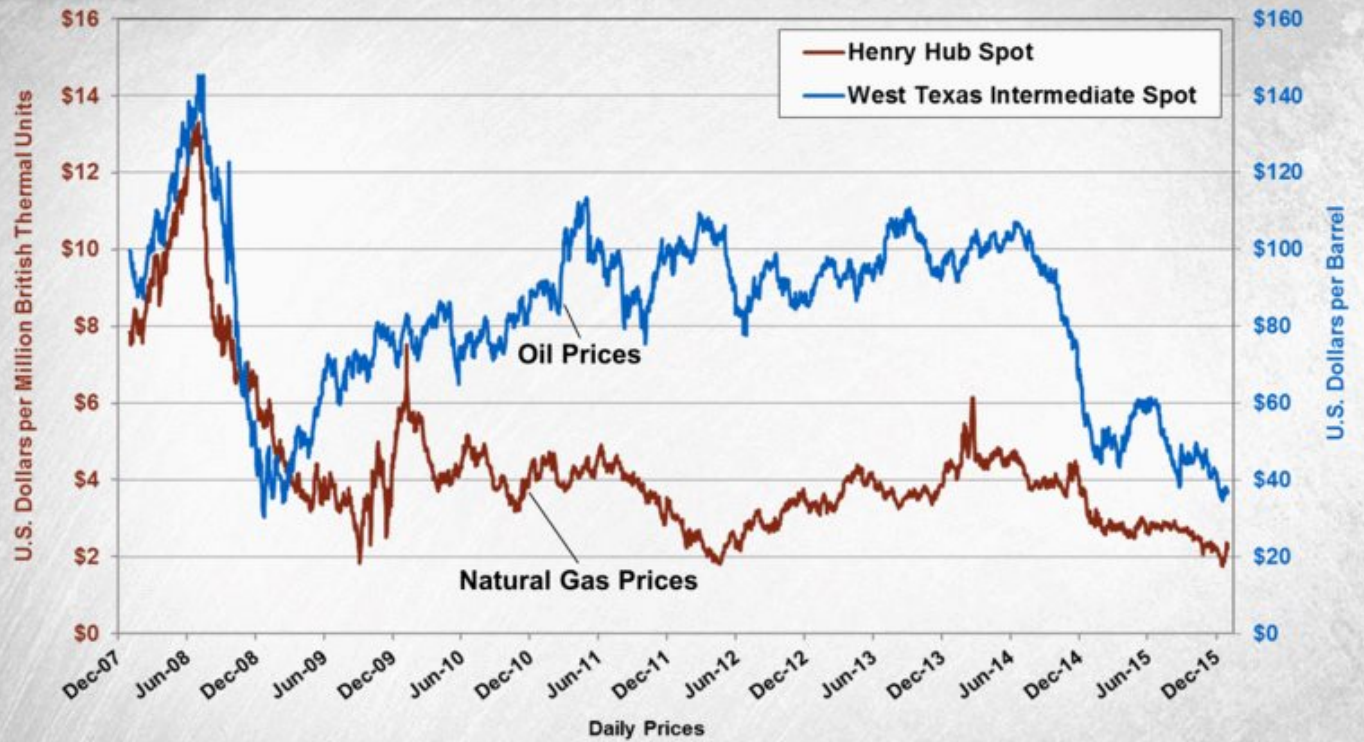

- Oil and gas prices remain low
- Rig count is now under 700 and expected to continue to decline
- Over 85% of active rigs are now drilling complex wells (horizontal and directional)
- AC drive market share continues to increase (now at 61%)
- Spot pricing remains soft

Drilling Activity in the U.S.

BHI U.S. Land Rig Count

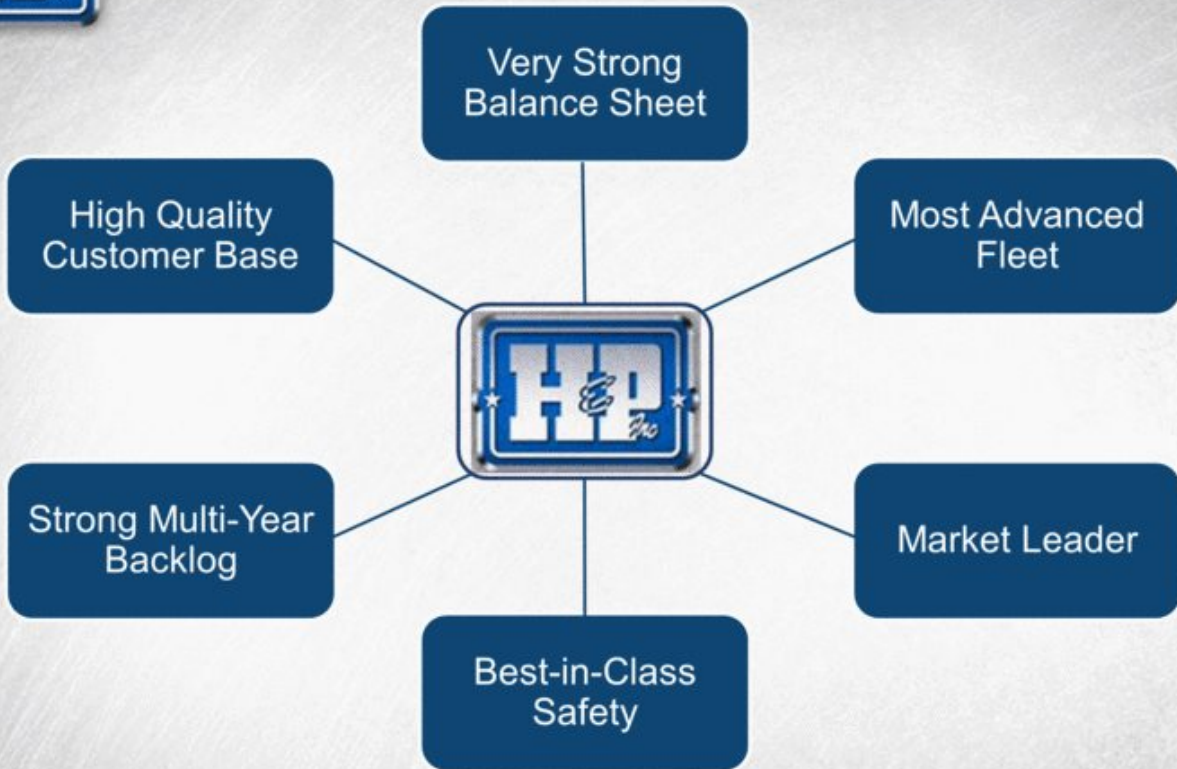

H&P's U.S. Land Activity and Pricing Comments

- H&P's U.S. Land segment has approximately 127 contracted rigs generating revenue as of January 6, 2016, down from 132 on December 9, 2015.
- Average FlexRig spot pricing is down by more than 30%, as compared to spot pricing at the peak in November 2014.
- Since the start of the downturn in late-2014, H&P's U.S. Land segment has received early termination notices for 73 rigs working under long-term contracts, up 12 from 61 at December 9, 2015.
- The 12 most recent early terminations are expected to generate total compensation fee revenues of approximately \$144 million (see footnotes on Term Contract slides for details). Four of the 12 rigs are already idle.

H&P Global Fleet Under Term Contract

Term Contract Status - H&P Global Fleet*
(Including Contracted New Builds - as of 1/6/16)

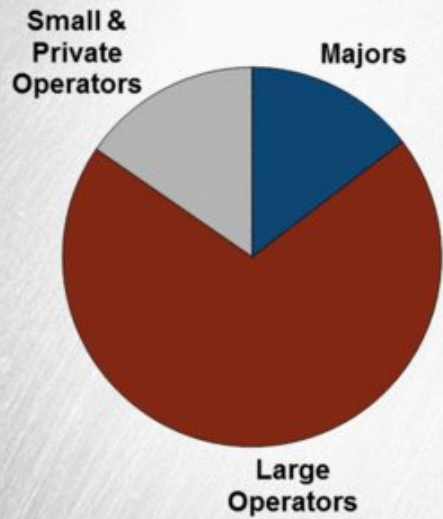

* The above term contract coverage excludes long-term contracts for which the Company received early contract termination notifications as of 1/6/16. Given notifications as of 1/6/16, the Company expects to generate approximately \$29 million in the first fiscal quarter of 2016, approximately \$147 million during the remaining three quarters of fiscal 2016, and over \$39 million thereafter from early terminations corresponding to long-term contracts. All of the above rig contracts include provisions for early termination fees. Some of the new build deliveries may be delayed in exchange for compensation from customers, but the corresponding total backlog would remain the same or potentially increase. Mutually beneficial renegotiations of some long-term contracts for active rigs are expected to extend the timing of those contracts beyond what is reflected above.

Strong Backlog

H&P vs. Industry U.S. Land Customer Base

H&P
U.S. Land Activity
Estimated Customer Distribution
(January 2016)

Industry
U.S. Land Activity
Estimated Customer Distribution
(January 2016)

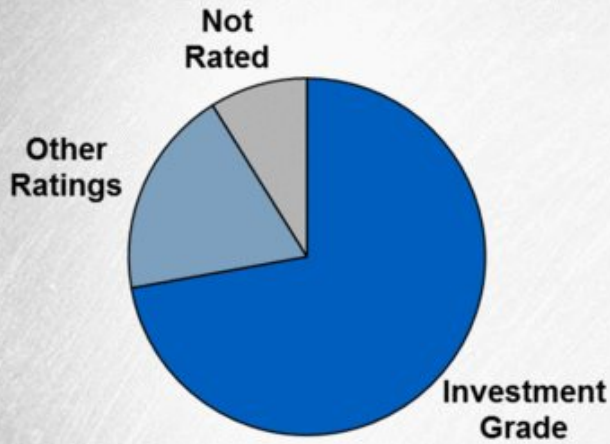

Note: The above estimates corresponding to the active rig fleet in the U.S. are derived from multiple sources including Rig Data and corporate filings.

High Quality Customer Base

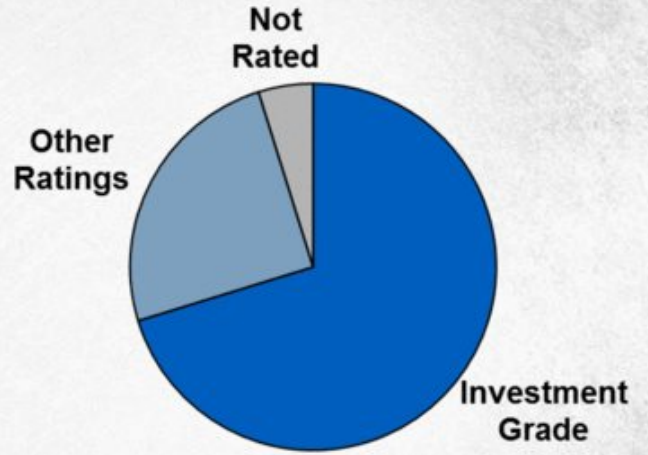

H&P Customer Credit Ratings

Number of Active H&P Rigs*
(Working for Corresponding Customers)

Number of Contracted Rig-Years**
(\$3.1 Billion H&P Backlog)

* As of September 30, 2015. Consists of 145 contracted U.S. Land rigs, 8 contracted Offshore rigs, and 15 contracted International Land rigs. Includes approximately 48 customers with active/contracted H&P rigs.

** The figures above represent H&P's customer commitments for term contract work at the beginning of the first fiscal quarter (October 1, 2015). The value of the H&P backlog was expected to continue to decline during the first fiscal quarter as the Company earned the corresponding income during the quarter through operations or through early contract termination fees.

High Quality Customer Base

Ongoing U.S. Land Market Trends

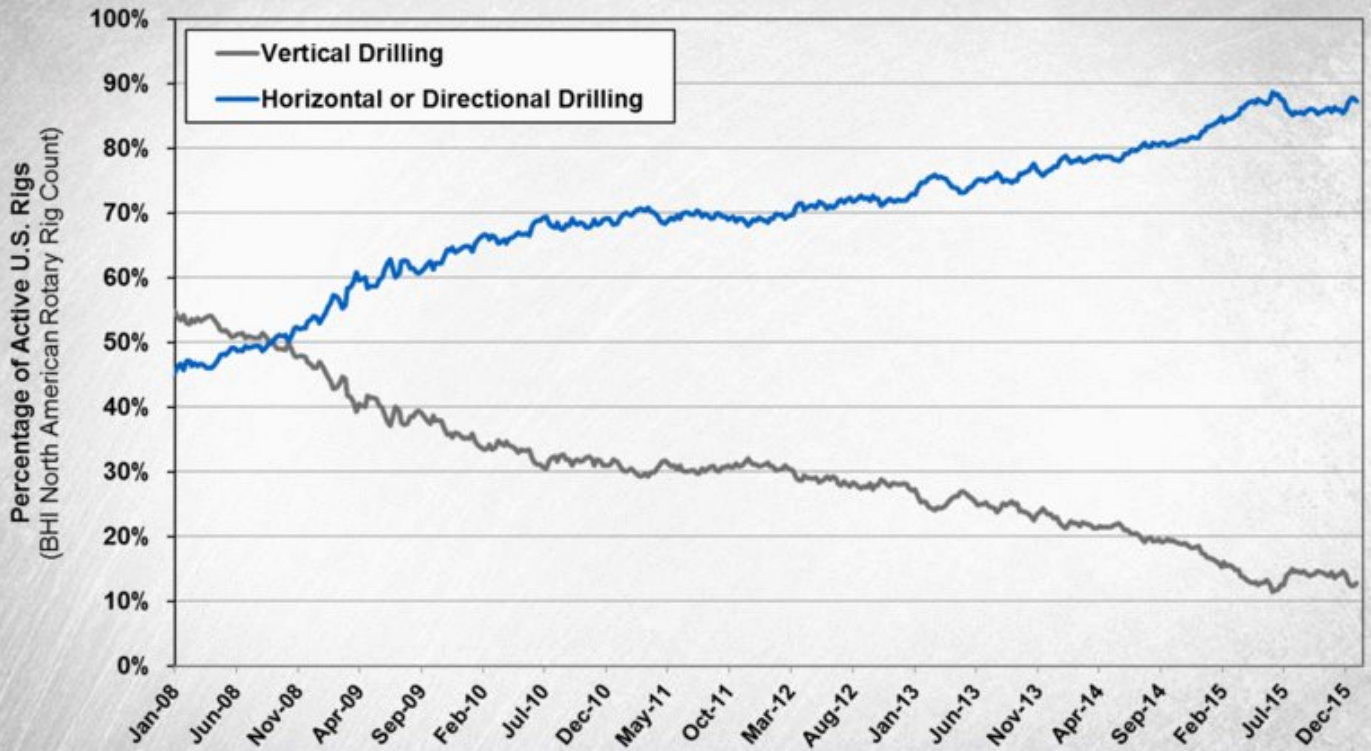

- Unconventional plays continue to shape the landscape.
- AC drive rigs are best suited for more complex horizontal drilling.
- Customers continue to focus on drilling efficiency, technology and safety.
- Multiple wells being drilled from a single pad.
- The replacement cycle is expected to continue.

Increasing Focus on More Difficult Drilling

U.S. Rig Activity by Drilling Type

U.S. Land Horizontal and Directional Activity

(As of December 2015)

Note: The above estimates corresponding to horizontal and directional rig activity by power type are derived from multiple sources including Rig Data, Smith Bits, and corporate filings. Additionally, the drawworks capacity of each land rig included in the above analysis was greater than or equal to 600 horsepower. Certain assumptions were made in relation to the power systems on certain unidentified rigs.

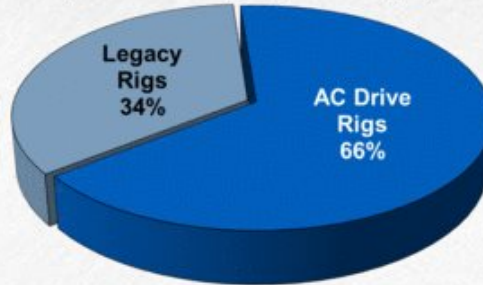

The Replacement Cycle: Customer Adoption

U.S. Land Market (as of December 2015)

Top 10 E&P Operators
(~175 Active Rigs by Power Type)

Next 90 E&P Operators
(~350 Active Rigs by Power Type)

Remaining E&P Operators
(~135 Active Rigs by Power Type)

Top 10 E&P Operators	Next 90 E&P Operators	Remaining E&P Operators
They represent the 10 most active E&P operators and employ ~27% of the industry's active drilling rigs.	They represent the next 90 most active E&P operators and employ ~53% of the industry's active drilling rigs.	They represent all other remaining active E&P operators and employ ~20% of the industry's active drilling rigs.
~92% of their rigs are drilling horizontal or directional wells.	~93% of their rigs are drilling horizontal or directional wells.	~62% of their rigs are drilling horizontal or directional wells.
~14% of their rigs are drilling horizontal or directional wells with SCR or Mechanical rigs.	~29% of their rigs are drilling horizontal or directional wells with SCR or Mechanical rigs.	~40% of their rigs are drilling horizontal or directional wells with SCR or Mechanical rigs.

Note: The above estimates corresponding to rig activity are derived from multiple sources including Rig Data, Smith Bits, and corporate filings. Additionally, the drawworks capacity of each land rig included in the above analysis was greater than or equal to 600 horsepower. Certain assumptions were made in relation to the power systems on certain unidentified rigs.

The Replacement Cycle Continues

As of December 2015
(~660 Active Rigs in U.S. Land By Power Type)

As of October 2008 (Peak)
(~1,925 Active Rigs in U.S. Land By Power Type)

As of October 2014 (Peak)
(~1,930 Active Rigs in U.S. Land By Power Type)

Note: The above estimates corresponding to rig activity are derived from multiple sources including Rig Data, Smith Bits, and corporate filings. Additionally, the drawworks capacity of each land rig included in the above analysis was greater than or equal to 600 horsepower. Certain assumptions were made in relation to the power systems on certain unidentified rigs.

H&P's Long Term Strategy

- Innovation
- Technology
- Safety and operational excellence
- Customer satisfaction
- Financial strength

H&P's FlexRig Advantage

The FlexRig Difference: Key Advantages

- **Increased drilling productivity and reliability**
 - Variable frequency AC technology providing precise control and increased capability
 - Computerized electronic driller more precisely controls down-hole parameters
 - FlexRig designs are suited for both efficient well to well moves and multiple-well pad applications
- **Accelerated well programs and NPV gains**
- **A safer and more environmentally friendly workplace**
- **Fleet size and uniformity**
- **Total well cost savings even at premium dayrates**

Most Advanced Fleet

The Value Proposition: The Power of Efficiency

	Theoretical Base Case	20% Efficiency Improvement	40% Efficiency Improvement
1. Drilling days average	13.5	10.8	8.1
Other days average	5.0	4.0	3.0
Moving days average (several multi-well pads)	1.5	1.2	0.9
Total rig days per well	20.0	16.0	12.0
Efficiency (Reduced Well Cycle Time)	-	20%	40%
2. Drilling contractor dayrate	\$15,000	\$20,000	\$25,000
Operator's other intangible (services) cost per day estimate	\$35,000	\$35,000	\$35,000
Total daily cost estimate	\$50,000	\$55,000	\$60,000
Total cost per well (daily services)	\$1,000,000	\$880,000	\$720,000
3. Total well savings for customer – per well		\$120,000	\$280,000
per year		(12% Savings) \$2.74 MM	(28% Savings) \$8.52 MM
4. Incremental number of wells per rig per year		4.6 wells	12.2 wells
