(1) The amounts specified in this column represent payments of estimated tax liability with respect to company-provided health benefits. The aggregate amount of perquisites and other personal benefits was less than either \$50,000 or 10% of the total annual salary and bonus reported for each of the named executive officers.

**PENSION PLANS**

The pension plan benefit under the Corporation's retirement plan is calculated pursuant to the following formula:

**Compensation X 1.5% = Annual Pension Benefit.**

Pension benefits, which are accrued annually, are determined based on average compensation received throughout a participant's career. "Compensation" includes salary, bonus, vacation pay, sick pay, Section 401(k) elective deferrals, and Section 125 "cafeteria plan" deferrals. Therefore, the pension benefit is not determined primarily by final compensation and years of service.

Based upon this formula, an assumed annual salary growth rate of 6%, and an age 62 retirement date, the estimated annual benefits payable to each named executive officer at retirement are:

NAME	AGE	ANNUAL RETIREMENT BENEFIT (1)
Hans Helmerich.....	35	\$352,616
George S. Dotson.....	53	\$127,998
Steven R. Shaw.....	43	\$125,388
Allen S. Braumiller.....	59	\$ 52,777
Douglas E. Fears.....	44	\$ 83,672

(The annual retirement benefit has not been reduced for statutory compensation and benefit limits, as amounts over these limits would be payable pursuant to the Supplemental Retirement Income Plan for Salaried Employees of Helmerich & Payne, Inc. The benefits listed above are computed as a straight single life annuity and are not subject to any reduction for Social Security or other offset amounts.

**COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION**

During fiscal 1993, the members of the Corporation's Human Resources Committee (which functions as the Corporation's compensation committee) were Mr. W. H. Helmerich, III, Mr. W. F. Martin, and Mr. George A. Schaefer. Mr. Helmerich was formerly chief executive officer of the Corporation from 1960 until 1989. No executive officer of the Corporation has any relationship covered by the Compensation Committee Interlock regulations.

Mr. W. H. Helmerich, III, Chairman of the Board, retired from the Corporation in December of 1989. Pursuant to a consulting agreement with the Corporation, he receives \$154,800 per year for a one-year term commencing January 1, 1990, plus reimbursement of reasonable business, travel, and other expenses in consideration of his agreement to provide advisory and consulting services (exclusive of services rendered by Mr. Helmerich as Chairman of the Board) to the Corporation. The consulting agreement is automatically renewed for successive one-year terms unless terminated by the Corporation or Mr. W. H. Helmerich, III.

**EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT  
AND CHANGE-OF-CONTROL ARRANGEMENTS**

The Helmerich & Payne, Inc., 1990 Stock Option Plan contains a provision whereby all stock options will automatically become fully vested and immediately exercisable without the requirement of any further act by the Corporation or participant in the event of a "change of control" of the Corporation, as defined in such plan. Pursuant to an agreement between the Corporation and the participants under the Restricted Stock Plan for Senior Executives of Helmerich & Payne, Inc., all restricted shares will automatically become fully vested, free of restrictions, without the requirement of any further act by the Corporation or a participant in the event of a "change of control" of the Corporation, as defined in such agreement.

If a named executive officer dies prior to age 65 while employed by the Corporation or after having retired under the Corporation's pension plan, then pursuant to an agreement with each named executive officer the surviving spouse of such deceased executive will be paid \$2,250 per month for 120 consecutive months, commencing upon the date of death. Alternatively, if the named executive officer remains in the employment of the Corporation until age 65 or has retired under the provisions of the Corporation's pension plan, then commencing on his 65th birthday such executive officer shall be paid \$225 per month for 120 consecutive months.

## HUMAN RESOURCES COMMITTEE REPORT

Decisions with regard to the compensation of the Corporation's executive officers are generally made by a three-member Human Resources Committee of the Board of Directors ("Committee"). Each member of the Committee is a non-employee director. Decisions about awards under the Corporation's stock-based compensation plans are made by the Committee and reported to the Board. All other decisions by the Committee relating to compensation of the Corporation's executive officers are reviewed by the Board. Generally, the Committee meets in December following the end of a particular fiscal year to consider prospective calendar-year salary adjustments, as well as to consider bonus compensation for executive officers during the prior fiscal year.

### Executive Officer Compensation Policies

The Corporation's executive compensation policies are designed to provide competitive levels of compensation that integrate pay with the Corporation's performance, recognize individual initiative and achievements, and assist the Corporation in attracting and retaining qualified executives. The Committee relies in large part on compensation studies for the determination of competitive compensation. These studies include compensation data from several competitor companies including that contained within the S&P Oil and Gas Drilling Index on page 17 of this Proxy Statement. In order to implement these objectives, the Corporation has developed a straightforward compensation package consisting of salary, annual bonus, and periodic awards of stock options and/or restricted stock. Each element of the compensation package serves a different purpose. Salary and bonus are primarily designed to award current and past performance. Awards of stock options and restricted stock are primarily designed to tie a portion of each executive's compensation to long-term future performance of the Corporation. The value of these awards will increase or decrease based upon the future price of the Corporation's stock. Base salaries are conservatively set to recognize individual performance while attempting to approximate the average level of base salaries among the Corporation's competitors. Annual bonuses to executive officers are awarded based upon corporate performance criteria and the Committee's subjective determination of individual performance.

In determining executive compensation for fiscal 1993, the Committee considered the Corporation's overall historical performance and its future objectives and challenges rather than utilizing a formula based on any particular performance measure in a single year. The Committee believes that this policy provides a certain degree of stability in executive compensation considering the cyclical nature of the Corporation's businesses. Within this framework, the Committee considered the following performance factors in making its compensation decisions in fiscal 1993: earnings per share; cash flow from operations; return on operating assets; and status of the Corporation's competitive position.

### Stock Plans

The Committee believes that stock ownership by management through stock-based compensation arrangements is beneficial in aligning management's and shareholders' interests. Although the named executive officers did not receive any grants under the Corporation's Restricted Stock Plan in fiscal 1993, the Committee believes that by making infrequent restricted stock awards for a significant number of shares, as was done in 1990, the participant will be motivated to increase the

Corporation's profits, asset values, and stock price over the long term. The Restricted Stock Plan provides for vesting of 20% of the total number of shares awarded to the participant on each of the third, fourth, fifth, sixth, and seventh anniversary dates of the award. The Restricted Stock Plan prohibits a subsequent grant under such Plan until all restrictions attributable to any former grant have expired. If the participant for any reason ceases to be an employee of the Corporation prior to the expiration of all restrictions, all shares then subject to restriction will be forfeited. Further, since the date of the restricted stock grants, no stock options have been awarded to any of the Restricted Stock Plan participants.

### **Compensation Paid to the Chief Executive Officer**

Compensation paid to the CEO in fiscal 1993 consisted primarily of base salary and annual bonus. Mr. Helmerich received a \$75,000 bonus and a 4.5% increase from the amount of salary and bonus received in calendar year 1992. The increase in CEO compensation was made in light of the Committee's subjective assessment of the quality of leadership displayed by Mr. Helmerich during a period of instability in the energy industry, and in consideration of the significant increase in the profitability of the Corporation.
