With regard to the election of Directors, stockholders may vote in favor of all nominees, withhold their votes as to all nominees, or withhold their votes as to specific nominees. Unless otherwise specified, the proxies on the enclosed form which are executed and returned will be voted for the nominees listed above as "Nominees for Directors of the First Class." The proxies executed and returned on the enclosed form can be voted only for the named nominees. If any one of the nominees is not a candidate at the Annual Meeting, an event which management does not anticipate, the proxies will be voted for a substitute nominee. The election of Directors will require the affirmative vote of a plurality of the shares of common stock voting in person or by proxy at the Annual Meeting. In all matters other than election of directors, a majority of shares of common stock voting in person or by proxy is required for approval. Abstentions and broker non-votes shall not be counted except for purposes of determining the presence of a quorum at the meeting.

The Company's transfer agent will tabulate all votes which are received prior to the date of the Annual Meeting. The Company has appointed two employee inspectors to receive the transfer agent's tabulation, to tabulate all other votes, and to certify the voting results.

The principal occupation of each of the Directors and the Nominees for Directors of the First Class is as set forth in the tables above and has been the same occupation for the past five years except with respect to Mr. John D. Zeglis, who was President of AT&T Corporation from 1997 to 1999; and Mr. Edward B. Rust, Jr. who was President of State Farm Mutual Automobile Insurance Company prior to September, 1998. Mr. Hans Helmerich is a son of Mr. W. H. Helmerich, III.

Attendance

There were four regularly scheduled meetings of the Board held during fiscal 2003. The Company requires each Director to make a diligent effort to attend all Board and Committee meetings as well as the annual meeting of the stockholders. Eight of the Company's Directors attended the 2003 Annual Meeting of the Stockholders. Except as stated below, no Director attended fewer than 75% of the aggregate of the total number of meetings of the Board of Directors and its committees held during fiscal 2003. Mr. William L. Armstrong did not attend the Nominating and Corporate Governance Committee meeting held on March 5, 2003.

Committees

Messrs. Cox (Chairman), Rust, and Rooney are members of the Audit Committee. A copy of the Audit Committee Charter is included as Appendix "A" to this Proxy Statement. The primary functions of the Audit Committee are to assist the Board of Directors in fulfilling its independent and objective oversight responsibilities of financial reporting and internal financial and accounting controls of the Company and to monitor the qualifications, independence and performance of the Company's independent accountants. The Board has determined each member of the Audit Committee is "independent" as that term is defined in Section 303.01(B)(2)(a) and (3) of the New York Stock Exchange Listing Standards. Also, the Board has determined that Mr. Glenn Cox is an "audit committee financial expert" as defined by Item 401 of Regulation S-K. During the fiscal year ended September 30, 2003, the Audit Committee held six meetings.

Ms. Marshall-Chapman and Messrs. Armstrong and Zeglis (Chairman) are members of the Human Resources Committee (which functions as the Company's compensation committee). The Board has adopted a written charter for the Human Resources Committee. The primary functions of the Human Resources

Committee are to review and make recommendations or decisions regarding compensation of the Company's executive officers and non-employee members of the Company's Board of Directors and to review and make recommendations regarding incentive compensation and equity-based compensation plans. During the year ended September 30, 2003, the Human Resources Committee held one meeting.

Ms. Marshall-Chapman and Messrs. Armstrong, Cox, Rooney (Chairman), Rust, and Zeglis are members of the Nominating and Corporate Governance Committee. The Board has adopted a written charter for the Nominating and Corporate Governance Committee. The primary functions of the Committee are to identify and to recommend to the Board the selection of Director nominees for each annual meeting of stockholders or for any vacancies on the Board and to make recommendations to the Board regarding the adoption or amendment of corporate governance principles applicable to the Company. During the fiscal year ended September 30, 2003, the Nominating and Corporate Governance Committee held one meeting.

Each of the charters of the Audit Committee, Human Resources Committee and Nominating and Corporate Governance Committee is available on the Company's website at www.hpinc.com. The non-management Directors, in fiscal 2003, met without management, in regularly scheduled executive sessions. Mr. Rooney has been presiding Director at each executive session.

Corporate Governance

The By-laws of the Company provide that any stockholder who is entitled to vote for the election of Directors at a meeting called for such purpose may nominate persons for election to the Board of Directors. A stockholder desiring to nominate a person or persons for election to the Board of Directors must send a timely written notice to the Corporate Secretary setting forth in reasonable detail the following (i) as to each person whom the stockholder proposes to nominate for election all information relating to such person that is required to be included in a proxy statement filed pursuant to the proxy rules of the Securities and Exchange Commission (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected) and (ii) as to the stockholder giving notice (a) the name and address of the stockholder making the nomination, (b) a representation that the stockholder is a holder of record of stock of the Company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to present the nomination, and (c) a description of all arrangements or understandings between the stockholder and any other person or persons (naming such person or persons) pursuant to which the nomination is to be made by the stockholder. The By-laws require the same notice with respect to stockholder proposals for other actions to be taken at a meeting of the stockholders.

To be timely, such notice must be received by the Corporate Secretary at the principal executive offices of the Company (i) in the case of an annual meeting (for which the Company gives at least 90 days prior notice to the stockholders), not less than 50 nor more than 75 days prior to such annual meeting, or (ii) in the case of a special meeting or any other annual meeting, notice must be received by the close of business on the 10th day after notice of such meeting is first given to the stockholders. Stockholders desiring to submit a recommendation for a director nominee for the Board of Directors must submit the recommendation to the Corporate Secretary at the principal executive offices of the Company.

Historically, the Board has generally identified nominees based upon suggestions by management or Board members and the Board has evaluated those nominees. The Nominating and Corporate Governance Committee does not currently have (i) a policy regarding the handling of Director candidate recommenda-

tions received from stockholders or (ii) a formal process for identifying and evaluating nominees for director (including nominees recommended by stockholders). These issues will be considered by the Nominating and Corporate Governance Committee which will then make a recommendation to the Board. The nominees for Director will be selected on the basis of outstanding achievement in their personal careers, broad experience, wisdom, integrity, ability to make independent analytical inquiries, and willingness to devote adequate time to Board duties.

The Board of Directors has implemented a procedure for stockholders of the Company to send communications to the Board. Any stockholder desiring to communicate with the Board, a specific Committee or individual Directors may do so by writing to the Corporate Secretary who has been instructed by the Board to promptly forward all such communications to the addressee indicated thereon. In addition, any issue or concern may be addressed in a confidential or anonymous manner by submitting the same to the Company through its Ethics Hotline. Additional detail regarding stockholder communication to the Company's Board of Directors can be found in the "Contact the Helmerich & Payne, Inc. Board of Directors" policy which is available on the Company's website at www.hpinc.com.

The number of shares underlying such options were increased by a factor of 1.314 by reason of such adjustment.

Stock Option Grants

The following table provides information with respect to stock options granted during fiscal year 2003.

OPTION GRANTS IN LAST FISCAL YEAR

Name	Individual Grants				Grant Date Value
	Number of Securities Underlying Options Granted (#) ⁽¹⁾	Percent of Total Options Granted to Employees in Fiscal Year	Exercise or Base Price (\$/Sh) ⁽²⁾	Expiration Date	Grant Date Present Value \$ ⁽³⁾
Hans Helmerich	90,000	.148	27.74	12/4/12	828,900

Gordon K. Helm	12,000	.020	27.74	12/4/12	110,520

(1) These options were granted pursuant to the Helmerich & Payne, Inc. 2000 Stock Incentive Plan and are nonqualified stock options which vest annually in 25% increments, beginning one year from the date of grant.

(2) The exercise price is the fair market value of the Company's stock on the grant date.

(3) The hypothetical present values on grant date were calculated under a modified Black-Scholes model, which is a mathematical formula used to value options. This formula considers a number of factors in hypothesizing an option's present value. Factors used to value the options include the stock's expected annual volatility rate (49.23%), risk free rate of return (4.03%), dividend yield (1.15%), term (10 years), and discounts for forfeiture of unvested shares (21.21%) and reduced term on vested shares (19.15%).

The ultimate values of these options will depend on the future market price of the Company's stock, which cannot be forecast with reasonable accuracy. The Company does not believe that the Black-Scholes model, whether modified or not modified, or any other valuation model, is a reliable method of computing the present value of the Company's employee stock options. The actual value, if any, the optionee will realize will depend on the excess of the market value of the Company's stock over the exercise price on the date of exercise.

(1) Includes the 1990 Stock Option Plan, the 1996 Stock Incentive Plan and the 2000 Stock Incentive Plan of the Company.

(2) The Company does not maintain any equity compensation plans that have not been approved by the stockholders.

Long-term Incentive Plans

The Company has no long-term incentive plans.

Pension Plans

During fiscal 2003, the Company revised its pension plan to close the pension plan to new participants effective October 1, 2003, and reduce benefit accruals for current participants through September 30, 2006, at which time benefit accruals will be discontinued and the plan frozen.

The pension benefit under the Company's pension plan for time periods prior to October 1, 2003, is calculated pursuant to the following formula:

$$\text{Compensation} \times 1.5\% = \text{Annual Pension Benefit.}$$

The pension benefit for the period commencing October 1, 2003 through September 30, 2006, is calculated as follows:

$$\text{Compensation} \times 0.75\% = \text{Annual Pension Benefit.}$$

Pension benefits, which are accrued annually, are determined based on compensation received throughout a participant's career. "Compensation" includes salary, bonus, vacation pay, sick pay, Section 401(k) elective

deferrals, and Section 125 “cafeteria plan” deferrals. Therefore, the pension benefit is not determined primarily by final compensation and years of service.

Based upon these formulas, an assumed annual salary and bonus growth rate of 6% and an age 65 retirement date, the estimated annual benefits payable to each named executive officer at retirement are:

Name	Current Age	Annual Retirement Benefit ⁽¹⁾
Hans Helmerich	45	\$150,831
George S. Dotson	63	\$162,588
Douglas E. Fears	54	\$ 63,131
Steven R. Mackey	53	\$ 57,741
Gordon K. Helm	51	\$ 27,218

(1) The annual retirement benefit has not been reduced for statutory compensation and benefit limits, as amounts over these limits would be payable pursuant to the Supplemental Retirement Income Plan for Salaried Employees of Helmerich & Payne, Inc. The benefits listed above are computed as a straight single life annuity and do not contemplate any reduction for Social Security or other offset amounts.

Report on Repricing of Options

There were no adjustments or amendments to the exercise price of stock options previously awarded to any of the named executive officers during the last fiscal year.

Compensation Committee Interlocks and Insider Participation

During fiscal 2003, the members of the Company’s Human Resources Committee were Ms. Marshall-Chapman and Messrs. Armstrong and Zeglis. No executive officer or director of the Company has any relationship covered by the Compensation Committee Interlock and Insider Participation regulations.

Employment Contracts and Termination of Employment and Change-of-Control Arrangements

Each of the named executive officers has entered into a Change of Control Agreement with the Company. If the Company terminates a named executive officer’s employment within 24 months after a change of control other than for cause, disability, death or the occurrence of a substantial downturn, or if any of the named executive officers terminates his employment for good reason within 24 months after a change of control (as such terms are defined in the Change of Control Agreement), any options or restricted stock granted to any of the named executive officers will vest in full and the Company will be required to pay or provide (i) a lump sum payment equal to two and one-half (2 1/2) times the base salary and annual bonus of Mr. Hans Helmerich and two (2) times the base salary and annual bonus of the other named executive officers, (ii) 24 months of benefit continuation, (iii) a prorated annual bonus, and (iv) up to \$5,000 for out-placement counseling services; provided that the payments and benefits shall be provided only if a named executive officer executes and does not revoke a release of claims in the form attached to the Change of Control Agreement. The Change of Control Agreement is automatically renewed for successive two-year periods unless terminated by the Company.

The Helmerich & Payne, Inc. 1990 Stock Option Plan, the Helmerich & Payne, Inc. 1996 Stock Incentive Plan and the Helmerich & Payne, Inc. 2000 Stock Incentive Plan contain a provision whereby all stock options and restricted stock will automatically become fully vested and immediately exercisable in the event of a “change of control” of the Company, as defined in such plans.

If a named executive officer dies prior to age 65 while employed by the Company or after having retired under the Company’s pension plan, then pursuant to an agreement with each named executive officer the surviving spouse of such deceased executive will be paid \$2,250 per month for 120 consecutive months, commencing upon the date of death. Alternatively, if the named executive officer remains in the employment of the Company until age 65 or has retired under the provisions of the Company’s pension plan, then commencing on his 65th birthday such executive officer shall be paid \$225 per month for 120 consecutive months.

Human Resources Committee Report

Decisions or recommendations with regard to the compensation of the Company’s executive officers are made by the Human Resources Committee of the Board (“Committee”). Each member of the Committee is a non-employee director. Decisions about awards under the Company’s equity-based compensation plans are made by the Committee and reported to the Board. All other decisions by the Committee relating to compensation of the Company’s executive officers are reviewed and approved by the other non-employee members of the Board. Generally, the Committee meets in December following the end of a particular fiscal year to consider prospective calendar-year salary adjustments and stock-based compensation, as well as to consider bonus compensation for executive officers for the prior fiscal year.

Executive Officer Compensation Policies

The Company’s executive compensation policies are designed to provide competitive levels of compensation that integrate pay with the Company’s performance, recognize individual initiative and achievements, and assist the Company in attracting and retaining qualified executives. The Committee relies in large part on compensation studies for the determination of competitive compensation. These studies include salary and bonus compensation data from several competitor companies including certain of those companies contained within the S&P 500 Oil & Gas Drilling Index. Also, when the Committee contemplates the awarding of stock options or restricted stock to its executives, it considers, among other things, the nature and amount of stock awards made by competitor companies to their executive officers. In order to implement these objectives, the Company has developed a straightforward compensation package consisting of salary, annual bonus, and periodic awards of stock options and/or restricted stock. Each element of the compensation package serves a particular purpose. Salary and bonus are primarily designed to reward current and past performance. Base salaries are set to recognize individual performance while attempting to generally approximate the median level of base salaries among the Company’s competitors. Annual bonuses to executive officers are awarded based upon performance criteria, competitive considerations, and the Committee’s subjective determination of individual performance. Awards of stock options and restricted stock are primarily designed to tie a portion of each executive’s compensation to long-term future performance of the Company. The Committee believes that stock ownership by management through stock-based compensation arrangements is beneficial in aligning management’s and stockholders’ interests. The value of these awards will increase or decrease based upon the future price of the Company’s stock.

During fiscal 2003, the Committee, with the assistance of an independent compensation consulting firm, reviewed the Company's executive compensation practices. There were no material changes made in the Company's executive compensation practices as a result of such review.

In determining executive compensation for fiscal 2003, the Committee considered the Company's overall historical performance and its future objectives, together with fiscal 2003 corporate performance. The Committee believes that this policy provides a certain degree of stability in executive compensation considering the cyclical nature of the Company's business. Within this framework, the Committee considered several disproportionately weighted performance objectives in making its compensation decisions for fiscal 2003. The performance objectives and their weighting were: net income as a percentage of invested capital (35%); earnings per share (35%); pre-tax cash flow from operations (15%); and pre-tax operating income (15%). The Committee determined that none of the performance objectives were met in fiscal 2003.

Each of the executive officers was assigned a 2003 target bonus award expressed as a percentage of base salary. Whether an executive officer earns all, more, or a portion of his target bonus award depends upon satisfaction of the performance objectives and the Committee's subjective determination of individual performance.

During fiscal 2003, stock options were awarded to the executive officers and other key employees. In making these stock option awards, the Committee considered both individual performance and the amount of stock option awards made by competitors.

Section 162(m) of the Internal Revenue Code provides that certain compensation to certain executive officers in excess of \$1 million annually will not be deductible for federal income tax purposes. The current compensation levels of the Company's executive officers are well below the \$1 million threshold. The Committee intends to optimize the deductibility of compensation paid to the Company's executive officers. However, if future compliance with Section 162(m) conflicts with the Company's compensation policy or what is believed to be in the best interests of the Company or its stockholders, then future compensation arrangements may not be fully deductible under Section 162(m).

Compensation Paid to the Chief Executive Officer

Mr. Helmerich's compensation is determined in the same manner as described for the other executive officers. The Committee in December 2002 granted Mr. Helmerich a 2.5% salary increase for calendar 2003. Consistent with the Company's compensation policies, Mr. Helmerich's salary was increased in order to approximate the median level of base salaries of competitor CEOs. As a result of the Committee's December 2003 review of corporate performance, industry conditions and other corporate considerations, the Board did not grant Mr. Helmerich nor the other named executive officers a bonus.

The Committee awarded Mr. Helmerich stock options to purchase 90,000 shares of stock. The Committee based this award on its subjective assessment of Mr. Helmerich's performance as CEO and the amount of stock options awarded to competitor CEOs.

In addition, and at least annually, request from the auditors and review a written report describing: such firm's internal quality-control procedures; any material issues raised by the most recent internal quality-control review, or peer review, of the firm or by an inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the firm, and any steps taken to deal with such issues. The Audit Committee shall review the foregoing and the auditors work throughout the year, taking into account the opinions of management and internal auditors, and present to the Board its conclusions with respect to the auditor's qualifications, performance and independence.

8. Discuss with the independent auditor the matters to be discussed by Statement on Auditing Standards No. 61 relating to the conduct of the audit. Regularly review with the independent auditor any difficulties the auditor encountered in the course of the audit work, including any restrictions on the scope of the independent auditor's activities or on access to requested information, and any significant disagreements with management.

9. Set clear hiring policies for employees or former employees of the Company's independent auditors.

10. Review and discuss quarterly reports from the independent auditor on: (a) all critical accounting policies to be used; (b) all alternative treatments of financial information with generally accepted accounting principles that have been discussed with management, ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the independent auditor; and (c) other material written communications between the independent auditor and management, such as any management letter or schedule of unadjusted differences.

D. *Other Audit Committee Responsibilities.* The Audit Committee shall:

1. Annually prepare a report to shareholders as required by the Securities and Exchange Commission. The report should be included in the Company's annual proxy statement.
2. Perform any other activities consistent with this Charter, the Company's by-laws, and governing laws, as the Audit Committee or the Board deems necessary or appropriate.
