The proxies executed and returned on the enclosed form can

be voted only for the named nominees. If any one of the nominees is not a candidate at the Annual Meeting, an event which management does not anticipate, the proxies will be voted for a substitute nominee. Abstentions and broker non-votes shall not be counted except for purposes of determining the presence of a quorum at the meeting.

STOCK OPTION GRANTS

The following table provides information with respect to stock options granted during fiscal year 2001.

OPTION GRANTS IN LAST FISCAL YEAR

NAME	INDIVIDUAL GRANTS			GRANT DATE VALUE	
	NUMBER OF SECURITIES UNDERLYING OPTIONS GRANTED (#) (1)	PERCENT OF TOTAL OPTIONS GRANTED TO EMPLOYEES IN FISCAL YEAR	EXERCISE OR BASE PRICE (\$/SH) (2)	EXPIRATION DATE	GRANT DATE PRESENT VALUE \$(3)

Steven R. Mackey.....	25,000	.030	32.3125	12/6/10	300,500

(1) These options were granted pursuant to the Helmerich & Payne, Inc. 1996 Stock Incentive Plan and are nonqualified stock options which vest annually in 25% increments, beginning one year from the date of grant.

(2) The exercise price is the fair market value of the Corporation's stock on the grant date.

(3) The hypothetical present values on grant date were calculated under a modified Black-Scholes model, which is a mathematical formula used to value options. This formula considers a number of factors in hypothesizing an option's present value. Factors used to value the options include the stock's expected annual volatility rate (50.00%), risk free rate of return (6.03%), dividend yield (0.93%), term (10 years), and discounts for forfeiture of unvested shares (21.21%) and reduced term on vested shares (18.34%).

The ultimate values of these options will depend on the future market price of the Corporation's stock, which cannot be forecast with reasonable accuracy. The Corporation does not believe that the Black-Scholes model, whether modified or not modified, or any other valuation model, is a reliable method of computing the present value of the Corporation's employee stock options. The actual value, if any, the optionee will realize will depend on the excess of the market value of the Corporation's stock over the exercise price on the date of exercise.

OPTION EXERCISES AND HOLDINGS

The following table sets forth information with respect to the named executive officers of the Corporation concerning the exercise of options during the last fiscal year and unexercised options held as of the end of the fiscal year.

(1) Fair market value used for computations in this column was \$26.10 per share, which was the closing price of the Corporation's common stock on September 30, 2001.

(2) These totals contain out-of-the-money options of 67,500, 45,000, 37,500, 22,500 and 18,750 for Messrs. Helmerich, Dotson, Shaw, Fears and Mackey, respectively.

(3) These totals contain out-of-the-money options of 112,500, 75,000, 62,500, 37,500 and 31,250 for Messrs. Helmerich, Dotson, Shaw, Fears and Mackey, respectively.

LONG-TERM INCENTIVE PLANS

The Corporation has no long-term incentive plans.

PENSION PLANS

The pension plan benefit under the Corporation's retirement plan is calculated pursuant to the following formula:

$$\text{Compensation} \times 1.5\% = \text{Annual Pension Benefit.}$$

Pension benefits, which are accrued annually, are determined based on compensation received throughout a participant's career. "Compensation" includes salary, bonus, vacation pay, sick pay, Section 401(k) elective

deferrals, and Section 125 "cafeteria plan" deferrals. Therefore, the pension benefit is not determined primarily by final compensation and years of service.

Based upon this formula, an assumed annual salary and bonus growth rate of 6%, and an age 62 retirement date, the estimated annual benefits payable to each named executive officer at retirement are:

NAME	CURRENT AGE	ANNUAL RETIREMENT BENEFIT (1)
Hans Helmerich.....	43	\$569,207
George S. Dotson.....	61	\$145,762
Steven R. Shaw.....	51	\$180,679
Douglas E. Fears.....	52	\$121,102
Steven R. Mackey.....	51	\$116,943

(1) The annual retirement benefit has not been reduced for statutory compensation and benefit limits, as amounts over these limits would be payable pursuant to the Supplemental Retirement Income Plan for Salaried Employees of Helmerich & Payne, Inc. The benefits listed above are computed as a straight single life annuity and are not subject to any reduction for Social Security or other offset amounts.

REPORT ON REPRICING OF OPTIONS

There were no adjustments or amendments to the exercise price of stock options previously awarded to any of the named executive officers during the last fiscal year.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal 2001, the members of the Corporation's Human Resources Committee (which functions as the Corporation's compensation committee) were Mr. William L. Armstrong, Mr. George A. Schaefer, and Mr. John D. Zeglis. No executive officer or director of the Corporation has any relationship covered by the Compensation Committee Interlock and Insider Participation regulations.

EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT AND CHANGE-OF-CONTROL ARRANGEMENTS

The Helmerich & Payne, Inc. 1990 Stock Option Plan, the Helmerich & Payne, Inc. 1996 Stock Incentive Plan and the Helmerich & Payne, Inc. 2000 Stock Incentive Plan contain a provision whereby all stock options and restricted stock will automatically become fully vested and immediately exercisable in the event of a "change of control" of the Corporation, as defined in such plans.

If a named executive officer dies prior to age 65 while employed by the Corporation or after having retired under the Corporation's pension plan, then pursuant to an agreement with each named executive officer the surviving spouse of such deceased executive will be paid \$2,250 per month for 120 consecutive months, commencing upon the date of death. Alternatively, if the named executive officer remains in the employment of the Corporation until age 65 or has retired under the provisions of the Corporation's pension plan, then commencing on his 65th birthday such executive officer shall be paid \$225 per month for 120 consecutive months.

HUMAN RESOURCES COMMITTEE REPORT

Decisions with regard to the compensation of the Corporation's executive officers are generally made by the Human Resources Committee of the Board ("Committee"). Each member of the Committee is a non-employee director. Decisions about awards under the Corporation's stock-based compensation plans are made by the Committee and reported to the Board. All other decisions by the Committee relating to compensation of the Corporation's executive officers are reviewed and approved by the Board. Generally, the Committee meets in December following the end of a particular fiscal year to consider prospective calendar-year salary adjustments and stock-based compensation, as well as to consider bonus compensation for executive officers for the prior fiscal year.

Executive Officer Compensation Policies

The Corporation's executive compensation policies are designed to provide competitive levels of compensation that integrate pay with the Corporation's performance, recognize individual initiative and achievements, and assist the Corporation in attracting and retaining qualified executives. The Committee relies in large part on compensation studies for the determination of competitive compensation. These studies include salary and bonus compensation data from several competitor companies including certain of those companies contained within the S&P Oil & Gas (Drilling & Equipment)-500 Index. Also, when the Committee contemplates the awarding of stock options or restricted stock to its executives, it considers the nature and amount of stock awards made by competitor companies to their executive officers. In order to implement these objectives, the Corporation has developed a straightforward compensation package consisting of salary, annual bonus, and periodic awards of stock options and/or restricted stock. Each element of the compensation package serves a particular purpose. Salary and bonus are primarily designed to reward current and past performance. Base salaries are conservatively set to recognize individual performance while attempting to generally approximate the median level of base salaries among the Corporation's competitors. Annual bonuses to executive officers are awarded based upon corporate and/or divisional performance criteria, competitive considerations, and the Committee's subjective determination of individual performance. Awards of stock options and restricted stock are primarily designed to tie a portion of each executive's compensation to long-term future performance of the Corporation. The Committee believes that stock ownership by management through stock-based compensation arrangements is beneficial in aligning management's and stockholders' interests. The value of these awards will increase or decrease based upon the future price of the Corporation's stock.

During fiscal 2001, the Committee, with the assistance of an independent compensation consulting firm, reviewed the Corporation's executive compensation practices. There were no material changes made in the Corporation's executive compensation practices as a result of such review.

In determining executive compensation for fiscal 2001, the Committee considered the Corporation's overall historical performance and its future objectives, together with fiscal 2001 corporate performance. The Committee believes that this policy provides a certain degree of stability in executive compensation considering the cyclical nature of the Corporation's businesses. Within this framework, the Committee considered several disproportionately weighted corporate and divisional performance objectives in making its compensation decisions for fiscal 2001. The performance objectives applicable to the entire corporation and their weighting were: net income as a percentage of invested capital (70%) and earnings per share (30%). The divisional objectives and weighting for the contract drilling business were: divisional net income as

a percentage of invested capital (70%); pre-tax cash flow from operations (15%); and after-tax income (15%). The divisional objectives and weighting for the exploration and production business were: finding cost (50%); after-tax income (25%); and divisional net income as a percentage of invested capital (25%). The Committee determined that not all of the divisional target performance objectives for the exploration and production business were met in fiscal 2001. The Committee determined that all of the divisional target performance objectives for the contract drilling business and all corporate target performance objectives were exceeded in fiscal 2001.

Each of the executive officers was assigned a 2001 target bonus award expressed as a percentage of base salary. Each of the executive officers was also assigned a corporate and/or divisional performance weighting percentage based upon each officer's corporate and/or divisional responsibilities. Whether an executive officer earns all, more, or a portion of his target bonus award depends upon satisfaction of corporate and/or divisional performance objectives, the corporate and/or divisional weighting assigned to an executive officer and the Committee's subjective determination of individual performance.

During fiscal 2001, stock options were awarded to the executive officers and other key employees. In making these stock option awards, the Committee considered both individual performance and the amount of stock option awards made by competitors.

Section 162(m) of the Internal Revenue Code provides that certain compensation to certain executive officers in excess of \$1 million annually will not be deductible for federal income tax purposes. Historically, the compensation levels of the Corporation's executive officers were well below the \$1 million threshold. However, since the Chief Executive Officer's current compensation level will slightly exceed the \$1 million deduction cap, the Committee will further analyze Section 162(m) and take such action as it deems appropriate.

Compensation Paid to the Chief Executive Officer

Mr. Helmerich's compensation is determined in the same manner as described for the other executive officers. For fiscal 2001, Mr. Helmerich earned a \$550,000 bonus and a 5.38% salary increase. Consistent with the Corporation's compensation policies, Mr. Helmerich's salary was increased in order to approximate the median level of base salaries of competitor CEOs. Mr. Helmerich's bonus was increased in light of the Corporation's record earnings and corporate target performance objectives being exceeded in fiscal 2001.

In addition, the Committee awarded Mr. Helmerich stock options to purchase 90,000 shares of stock. The Committee based this award on its subjective assessment of Mr. Helmerich's performance as CEO and the amount of stock options awarded to competitor CEOs.
